

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ibrahim Shaban
DOCKET NO.: 20-30997.001-R-1
PARCEL NO.: 18-35-222-014-0000

The parties of record before the Property Tax Appeal Board are Ibrahim Shaban, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,930
IMPR.: \$43,035
TOTAL: \$46,965

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3-story multi-family building of masonry exterior construction with 5,880 square feet of building area. The building is approximately 44 years old. Features of this building include an unfinished basement. The property has a 9,825 square foot site and is located in Justice, Lyons Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located in the same neighborhood code as the subject property¹, along with property characteristic printouts for the comparables. The comparables are improved with 2-story or 3-story, class 2-11 multi-family buildings of masonry exterior construction ranging in size from

5,705 to 7,011 square feet of building area. The comparables range in age from 25 to 50 years old. Based on the property printouts, three comparables each have a basement, one of which is finished with an apartment, and two comparables each have a concrete slab foundation. One comparable has central air conditioning. One comparable has five fireplaces and a 4-car garage. The comparables have improvement assessments ranging from \$32,876 to \$44,745 or from \$5.59 to \$6.99 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$46,965. The subject property has an improvement assessment of \$43,035 or \$7.32 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with 3-story, class 2-11 buildings of masonry exterior construction with each having 5,880 square feet of building area. The comparables are either 43 or 44 years old. Each comparable has an unfinished basement. The comparables have improvement assessments ranging from \$42,160 to \$44,577 or from \$7.17 to \$7.58 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested equity comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparable #5 as well as the board of review comparables which are identical to the subject in building size and similar in location, design, age, and features. These comparables have improvement assessments ranging from \$41,112 to \$44,577 or from \$6.99 to \$7.58 per square foot of building area. The subject's improvement assessment of \$43,035 or \$7.32 per square foot of building area falls within the range established by the best comparables in this record. The Board gives less weight to the appellant's remaining comparables due to differences in design, age, building size, and/or foundation type when compared to the subject. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
