

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kieran Noonan
DOCKET NO.: 20-31519.001-R-1
PARCEL NO.: 18-05-424-034-0000

The parties of record before the Property Tax Appeal Board are Kieran Noonan, the appellant, by attorney Kevin Fanning, of Fanning Law, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,065
IMPR.: \$60,922
TOTAL: \$65,987

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 2,465 square feet of living area. The dwelling is approximately 16 years old. Features of the home include a full unfinished basement, central air conditioning, two full bathrooms, one half bathroom, a fireplace and a 2-car garage. The property has an approximately 6,987 square foot site and is located in La Grange, Lyons Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code as the subject are located within approximately .9 of a mile from the subject property. The comparables are class 2-78 properties

that are improved with two-story dwellings¹ of frame exterior construction ranging in size from 3,223 to 3,706 square feet of living area. The dwellings are 1 to 19 years old. The comparables each have a basement, one of which has finished area. Each comparable has central air conditioning, two to four full bathrooms, a fireplace and a 2-car or a 3.5-car garage. The comparables have improvement assessments that range from \$71,980 to \$82,774 or from \$20.60 to \$22.34 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$53,466 or \$21.69 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$65,987. The subject property has an improvement assessment of \$60,922 or \$24.71 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code as the subject and are located within ¼ of a mile from the subject property. The comparables are class 2-78 properties that are improved with two-story dwellings of frame exterior construction ranging in size from 2,298 to 3,024 square feet of living area. The dwellings are 7 to 72 years old. The comparables each have a full or partial basement, one of which has finished area. Three comparables have central air conditioning, three comparables each have a fireplace, each comparable has two or three full bathrooms and two comparables each have one half bathroom. Each comparable has a 1.5-car or a 2-car garage. The comparables have improvement assessments that range from \$60,484 to \$83,409 or from \$25.21 to \$27.58 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant critiqued the evidence submitted by the board of review. Counsel argued that board of review comparable #4 is significantly older than the subject; comparable #3 has three full bathrooms while the subject only has two full bathrooms; and comparable #1 has a formal recreation room in the basement while the subject has an unfinished basement.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables, as well as board of review

¹ The photographic evidence provided by the appellant depicts each comparable with a two-story dwelling.

comparables #2 and #4 due to their substantially larger dwelling sizes and/or less similar dwelling ages, when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1 and #3, which are similar to the subject in location, dwelling size, design and age. However, the Board finds these comparables have varying degrees of similarity to the subject in the number of bathrooms, the number of fireplaces and finished basement area, suggesting adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, these two comparables have improvement assessments of \$68,469 and \$72,378 or \$26.84 and \$25.21 per square foot of living area, respectively. The subject's improvement assessment of \$60,922 or \$24.71 per square foot of living area falls below the two best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
