

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: BBH Properties LLC
DOCKET NO.: 20-33541.001-R-1
PARCEL NO.: 30-31-401-012-0000

The parties of record before the Property Tax Appeal Board are BBH Properties LLC, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,550
IMPR.: \$6,870
TOTAL: \$9,420

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,331 square feet of living area. The dwelling is approximately 91 years old. Features of the home include a full unfinished basement and a 2-car garage. The property has a 6,800 square foot site and is located in Lansing, Thornton Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-03 properties improved with dwellings of frame exterior construction ranging in size from 1,479 to 1,614 square feet of living area. The dwellings are 62 to 96 years old and have full unfinished basements. Each home has central air conditioning and a 2-car garage. The

comparables have improvement assessments ranging from \$6,656 to \$7,512 or from \$4.29 to \$4.68 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$9,420. The subject property has an improvement assessment of \$6,870 or \$5.16 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables with the same assessment neighborhood code as the subject. The comparables are class 2-03 properties improved with 1-story or 1.5-story dwellings of frame or masonry exterior construction ranging in size from 1,079 to 1,507 square feet of living area. The dwellings are 80 to 97 years old and have full basements, one of which has finished area. Three comparables have central air conditioning and 2-car garages. Two comparables each have one fireplace. The comparables have improvement assessments ranging from \$6,880 to \$10,163 or from \$5.30 to \$9.42 per square foot of living area. Based on this evidence the board of review requests confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration. The Board gives less weight to appellant's comparables #1 and #3 as well as board of review comparable #2 due to differences in dwelling size when compared to the subject. The Board gives less weight to board of review comparable #3 which has finished basement area unlike the subject.

The Board finds the best evidence of assessment equity to be appellant's comparables #2 and #4 as well as board of review comparables #1 and #4 which are more similar to the subject in dwelling size. These comparables also have varying degrees of similarity to the subject in age and features. The comparables have improvement assessments ranging from \$6,809 to \$8,677 or from \$4.60 to \$5.76 per square foot of living area. The subject's improvement assessment of \$6,870 or \$5.16 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
