

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: GCIY Properties LLC
DOCKET NO.: 20-33546.001-R-1
PARCEL NO.: 30-31-223-002-0000

The parties of record before the Property Tax Appeal Board are GCIY Properties LLC, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,875
IMPR.: \$7,121
TOTAL: \$8,996

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of masonry exterior construction with 1,209 square feet of living area. The dwelling is approximately 78 years old. Features of the home include an unfinished basement and a 2-car garage.¹ The property has a 5,000 square foot site and is located in Lansing, Thornton Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables that have the same assessment neighborhood code as the subject. The comparables are improved with class 2-03 dwellings of masonry exterior construction ranging in size from 1,521 to 1,637

¹ The appellant reported in Section III of the appeal petition that the subject dwelling has no central air conditioning, which is consistent with the board of review's grid analysis.

square feet of living area. The dwellings are from 59 to 71 years old. Each comparable has an unfinished basement, central air conditioning and a 2-car garage. The comparables have improvement assessments ranging from \$6,568 to \$8,001 or from \$4.32 to \$5.01 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$5,598 or \$4.63 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$8,996. The subject property has an improvement assessment of \$7,121 or \$5.89 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables that have the same assessment neighborhood code as the subject. The comparables are improved with class 2-03, 1.5-story dwellings of masonry exterior construction ranging in size from 1,080 to 1,224 square feet of living area. The dwellings are either 78 or 79 years old. Each comparable has a basement with one having finished area and either a 1.5-car, a 2-car or a 3-car garage. Two comparables each have central air conditioning. The comparables have improvement assessments ranging from \$7,348 to \$7,705 or from \$6.29 to \$6.80 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives the most weight to the board of review comparables which are most similar to the subject in location, age, dwelling size, and foundation type. These four comparables have improvement assessments ranging from \$7,348 to \$7,705 or from \$6.29 to \$6.80 per square foot of living area. The subject's improvement assessment of \$7,121 or \$5.89 per square foot of living area falls below the range established by the best comparables in this record. The Board gives less weight to the appellant's comparables which are less similar to the subject in age and/or dwelling size than the board of review's comparables. Based on this evidence and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
