

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kristin Barnes
DOCKET NO.: 20-33630.001-R-1
PARCEL NO.: 15-34-207-022-0000

The parties of record before the Property Tax Appeal Board are Kristin Barnes, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,929
IMPR.: \$17,584
TOTAL: \$20,513

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 870 square feet of living area. The dwelling is approximately 97 years old. Features of the home include a full unfinished basement and a 1-car garage. The property has a 3,780 square foot site and is located in Brookfield, Proviso Township, Cook County.

The appellant contends assessment inequity regarding the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-02 dwellings of masonry exterior construction ranging in size from 913 to 939 square feet of living area. The comparables are 66 to 101 years old and have full unfinished basements. Each comparable is reported to have central air conditioning and a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from

\$16,037 to \$17,719 or from \$17.21 to \$18.87 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$20,513. The subject property has an improvement assessment of \$17,584 or \$20.21 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code and same block as the subject, two of which are on the same street as the subject. The comparables are improved with class 2-02, 1-story dwellings of masonry exterior construction with either 824 or 870 square feet of living area. The comparables are 90 to 97 years old. The comparables have full basements, one of which is finished with a recreation room. Comparable #1 has central air conditioning. Comparables #3 and #4 have 2-car garages. The comparables have improvement assessments ranging from \$17,633 to \$22,168 or from \$20.27 to \$25.48 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration. The Board gives less weight to appellant's comparable #3 due to difference in age when compared to the subject and the remaining comparables in the record.

The Board finds the best evidence of assessment equity to be appellant's comparables #1, #2 and #4 as well as the board of review comparables which are most similar in age and have varying degrees of similarity to the subject in dwelling size and features. The Board finds one comparable has finished basement area, four comparables have central air conditioning, five comparables have a larger garage, and two comparables lack a garage, suggesting adjustments are necessary to make them more equivalent to the subject. These comparables have improvement assessments ranging from \$16,037 to \$22,168 or from \$17.21 to \$25.48 per square foot of living area. The subject's improvement assessment of \$17,584 or \$20.21 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
