

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chris Derby  
DOCKET NO.: 20-33635.001-R-1  
PARCEL NO.: 15-08-425-030-0000

The parties of record before the Property Tax Appeal Board are Chris Derby, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***a reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$1,745  
**IMPR.:** \$21,826  
**TOTAL:** \$23,571

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story multi-family building of masonry exterior construction with 3,118 square feet of building area and is approximately 59 years old. Features of the building include a full basement that is finished with a recreation room. The property has a 3,675 square foot site and is located in Hillside, Proviso Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables that are located within the same assessment neighborhood code as the subject. The comparables are improved with class 2-11, multi-family buildings of masonry exterior construction ranging in size from 2,950 to 3,887 square feet of building area. The buildings are 41 or 59 years old. Each

comparable has a full basement that is finished with an apartment and central air conditioning. Comparable #1 has a 2.5 car garage. The comparables have improvement assessments that range from \$20,732 to \$28,591 or from \$6.42 to \$7.36 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$25,009. The subject property has an improvement assessment of \$23,264 or \$7.46 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject property and same block or subarea as the subject. The comparables are improved with class 2-11, two-story multi-family buildings of masonry exterior construction ranging in size from 2,150 to 3,307 square feet of building area. The buildings are 59 years old and have full or partial basements that are finished with an apartment or a recreation room. Comparables #1, #3 and #4 each have a 2.5-car or a 3-car garage. The comparables have improvement assessments that range from \$20,347 to \$33,160 or from \$7.84 to \$10.03 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains eight suggested equity comparables for the Board's consideration. The Board has given less weight to appellant's comparables #1 and #4 as well as the board of review comparables due to differences in building size and/or have a garage which is a feature the subject lacks.

The Board finds the best evidence of assessment equity to be appellant's comparables #2 and #3 which are more similar to the subject in location, age, building size and features. The comparables have improvement assessments of \$20,732 and \$21,003 or \$7.03 and \$7.08 per square foot of building area. The subject's improvement assessment of \$23,264 or \$7.46 per square foot of building area falls above the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
