

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dhaval Patel
DOCKET NO.: 20-34657.001-R-1
PARCEL NO.: 27-18-104-043-0000

The parties of record before the Property Tax Appeal Board are Dhaval Patel, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,520
IMPR.: \$46,232
TOTAL: \$57,752

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story single-family dwelling of masonry exterior construction with 3,365 square feet of living area. The dwelling is approximately 27 years old. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a three-car garage. The property has a 23,040 square foot site and is located in Orland Park, Orland Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code and within .9 of a mile from subject. The comparables consist of class 2-78 dwellings of masonry exterior construction which range in age from 23 to 33 years old. The comparables range in size from 3,464 to 3,751 square feet of living

area. The comparables have either a full or a partial basement, one of which has finished area. Each dwelling has central air conditioning, one or two fireplaces and a three-car garage. The comparables have improvement assessments ranging from \$35,020 to \$48,717 or from \$10.11 to \$12.99 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$40,077 or \$11.91 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$57,752. The subject property has an improvement assessment of \$46,232 or \$13.74 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code and either on the same block or subarea of the subject. The comparables consist of class 2-78 two-story dwellings of masonry or frame and masonry exterior construction which range in age from 22 to 30 years old. The comparables range in size from 3,195 to 3,445 square feet of living area. Each comparable has full basement, one of which has finished area. Features include central air conditioning, one or two fireplaces and either a two-car or a three-car garage. The comparables have improvement assessments ranging from \$46,487 to \$50,962 or from \$14.41 to \$15.95 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven equity comparables to support their respective positions before the Property Tax Appeal Board which present varying degrees of similarity to the subject property. The comparables have improvement assessments ranging from \$35,020 to \$50,962 or from \$10.11 to \$15.95 per square foot of living area. The subject's improvement assessment of \$46,232 or \$13.72 per square foot of living area falls within the range established by the comparables in this record and appears to be logical when giving due consideration to adjustments to the comparables for variations in age, dwelling size, basement size, basement finish, number of fireplaces and/or garage size. Based on this record and after analyzing appropriate adjustments to account for differences between the comparables and the subject property, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
