

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Zayed Tabbara
DOCKET NO.: 20-34839.001-R-1
PARCEL NO.: 18-36-313-039-0000

The parties of record before the Property Tax Appeal Board are Zayed Tabbara, the appellant, by attorney Andrew S. Dziuk, of Andrew Dziuk, Esq. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$612
IMPR.: \$14,517
TOTAL: \$15,129

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story townhome of frame and masonry exterior construction with 1,256 square feet of living area. The dwelling is approximately 23 years old. Features of the home include a partial unfinished basement, central air conditioning and a one-car garage. The property has a 1,530 square foot site and is located in Justice, Lyons Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject but on a different street than the subject. The comparables consist of class 2-95 townhomes of frame and masonry exterior construction which are 19 years old. The comparables contain 1,344 square feet of living area

with a concrete slab foundation, central air conditioning and a one-car garage. The comparables have improvement assessments ranging from \$14,394 to \$14,401 or either \$10.71 or \$10.72 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$13,452 or \$10.71 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$15,129. The subject property has an improvement assessment of \$14,517 or \$11.56 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables, located in the same neighborhood code as the subject and on the same block and street as the subject. The comparables consist of class 2-95 two-story townhomes of frame and masonry exterior construction which are either 16 or 23 years old. The comparables contain 1,256 square feet of living area and a full or partial unfinished basement. Features include central air conditioning and a one-car garage. The comparables have improvement assessments ranging from \$14,517 to \$15,285 or from \$11.56 to \$12.17 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight equity comparables to support their respective positions before the Property Tax Appeal Board. The Board gives reduced weight to the appellant's comparables which differ from the subject in foundation type and dwelling size.

The Board finds the best evidence of assessment equity to be the board of review comparables which are identical to the subject in dwelling size, foundation and features. The Board recognizes that comparable #1, #2 and #3 are newer townhomes and have slightly higher improvement assessments, but comparable #4 is identical to the subject in age as well as features with an identical assessment to that of the subject. These comparables have improvement assessments ranging from \$14,517 to \$15,285 or from \$11.56 to \$12.17 per square foot of living area. The subject's improvement assessment of \$14,517 or \$11.56 per square foot of living area falls within the range established by the best comparables in this record and is well-supported by comparable #4 that is identical to the subject. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
