

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Park Oaks Condominium Association  
DOCKET NO.: 20-35022.001-R-1  
PARCEL NO.: 28-30-308-028-1001

The parties of record before the Property Tax Appeal Board are Park Oaks Condominium Association, the appellant, by attorney Mary Kate Gorman, Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$796  
**IMPR.:** \$13,842  
**TOTAL:** \$14,638

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of one unit in an eight-unit, residential condominium building situated on a 9,436 square foot parcel of land. The building is 20-years old. The subject unit has a 12.5% ownership interest in the common elements. The property is located in Tinley Park, Bremen Township, Cook County. The subject is classified as a class 2-99 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information for three sale comparables in other buildings that sold between December 2018 and August 2019. They ranged in sale price from \$115,000 to \$127,000. Based on this evidence, the appellant is requesting an assessment amount of \$12,233.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$14,638. The subject's assessment reflects a market value of \$146,380 when applying the level of assessment for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment the board of review submitted a condominium analysis showing that one unit in the subject's building sold in June 2018 for \$172,000. The sale price was then divided by the percentage of ownership interest in the common elements of the unit sold (12.5%) to arrive at a suggested total market value for the building of \$1,376,000, multiplied by the percentage of ownership of the subject unit (12.5%) to arrive at a fair market value of \$172,000. Based on this analysis, the board of review requested confirmation of the subject's current assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal, the value of the property must be proven by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales, or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof, and a reduction in the subject's assessment is not warranted.

“Real property taxes . . . which are authorized by law to be assessed against and levied upon real property shall be assessed against and levied upon each unit and the owner's corresponding percentage of ownership in the common elements as a tract, and not upon the property as a whole.” 765 ILCS 605/10(a).

In the instant case, the Board was provided with sales from both parties; however, only the board of review relied on sales within the subject building. The Board finds the condominium analysis utilized by the board of review using sales from within the subject building and based on the percentage of ownership interest in the common elements is the best evidence of the subject's market value. The market value for the subject indicated by these sales is greater than its assessed valuation which further supports a conclusion that the board of review did not overvalue the subject.

In contrast, appellant submitted information about three suggested sales comparables. These suggested comparables are condominium units in buildings that are located over one mile from the subject property. Appellant failed to provide information that would be important in determining the degree of similarity between the subject property and these suggested comparables, most notably the percentage of ownership interest in the common elements. It is impossible to determine whether there are material differences between the subject unit and the comparables such that the sales prices of the comparables would accurately reflect the subject's market value.

The Board finds that the subject unit had a market value of \$146,380 for the 2020 assessment year. The subject's current assessment of \$14,638, reflects a market value below the market value established by the best evidence in this record. Based on this record, the Board finds the appellant has not proven, by a preponderance of the evidence, that the subject is overvalued, and that a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
