PARCEL NO.: See Below

The parties of record before the Property Tax Appeal Board are Senad Jakupovic, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

DOCKET NO	PARCEL NUMBER	LAND	IMPRVMT	TOTAL

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels with one parcel being improved with a multi-level dwelling of frame and masonry exterior construction with 1,430 square feet of living area. The dwelling is approximately 59 years old. Features of the dwelling include a basement with finished area, central air conditioning, and a 2-car garage. The property has a combined 7,500 square foot site and is located in Lincolnwood, Niles Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same neighborhood code as the subject property. The comparables are improved with class 2-34, multi-level dwellings of masonry exterior construction ranging in size

from 1,950 to 2,354 square feet of living area. The homes are either 55 or 63 years old. Each comparable has a basement with finished area, central air conditioning, and a 2-car garage. The comparables have improvement assessments ranging from \$22,852 to \$27,583 or from \$11.72 to \$12.10 per square foot of living area. Based on this evidence, the appellant requested that the subject's total improvement assessment be reduced.

The appellant's submission included a copy of the "Cook County Board of Review" final decision dated May 10, 2021 which disclosed the subject has a total assessment for the two parcels of \$30,514. The "Addendum to Petition" disclosed the subject's total assessment reflects a total land assessment of \$7,500 and a total improvement assessment of \$23,014 or \$16.09 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" for only one of the parcels under appeal. Nevertheless, in support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same neighborhood code as the subject property. The comparables are improved with class 2-34, multi-level dwellings of frame and masonry exterior construction ranging in size from 1,269 to 1,380 square feet of living area. The homes range in age from 59 to 63 years old. Each comparable has a basement with finished area, three comparables each have central air conditioning, and two comparables have either a 1-car or a 1.5-car garage. The comparables have improvement assessments ranging from \$21,002 to \$25,194 or from \$16.54 to \$18.63 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be board of review comparables #1, #2, and #3 which are similar to the subject in location, design, age, dwelling size, and some features. The three best comparables have improvement assessments ranging from \$22,825 to \$25,194 or from \$16.54 to \$18.63 per square foot of living area. The subject's improvement assessment of \$23,014 or \$16.09 per square foot of living area falls within the range established by the best comparables in this record on an overall basis and below on a per square foot basis. The Board gives less weight to the parties' remaining comparables due to differences in dwelling size when compared to the subject. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
