

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Barbara Denison
DOCKET NO.: 20-35577.001-R-1
PARCEL NO.: 04-11-304-021-0000

The parties of record before the Property Tax Appeal Board are Barbara Denison, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Northbrook, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$34,715
IMPR.: \$55,795
TOTAL: \$90,510

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of frame and masonry exterior construction containing 5,814 square feet of living area. The dwelling is approximately 42 years old. Features of the home include a full unfinished basement, central air conditioning, two fireplaces, 4½ bathrooms, and a detached three-car garage. The property has a 30,187 square foot site located in Northbrook, Northfield Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity regarding the improvements as the basis of the appeal. In support of this argument the appellant submitted information on four assessment equity comparables composed of class 2-09 properties of frame, masonry, or frame and masonry exterior construction that range in size from 5,025 to 7,635 square feet of living area. The homes

range in age from 54 to 73 years old. Each comparable has a partial basement with three having formal recreation rooms, central air conditioning, two or three fireplaces, and from a 1-car to a 3-car attached garage. The comparables have two to six full bathrooms and three have an additional one or two half-bathrooms. These properties have the same assessment neighborhood code as the subject. Their improvement assessments range from \$40,676 to \$68,607 or from \$7.81 to \$8.99 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$48,779.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$90,510. The subject property has an improvement assessment of \$55,795 or \$9.60 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables composed of class 2-09 properties of masonry or frame and masonry exterior construction that range in size from 5,188 to 6,765 square feet of living area. The homes range in age from 16 to 25 years old. Each property has a full basement with two having formal recreation rooms, central air conditioning, two to four fireplaces, three to six full bathrooms, one or two half-bathrooms, and a three-car garage. The comparables have the same assessment neighborhood code as the subject. These properties have improvement assessments ranging from \$67,368 to \$94,612 or from \$11.50 to \$13.99 per square foot of living area.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on eight assessment equity comparables with the same classification code and neighborhood code to support their respective positions. The Board gives less weight to appellant's comparable's #2 and #4 due to differences from the subject dwelling in size and/or age. The Board gives less weight to board of review comparables #2 and #4 due to differences from the subject in dwelling size. The Board finds the best evidence of assessment equity to be appellant's comparables #1 and #3 and board of review comparables #1 and #3. These four comparables range in size from 5,188 to 5,857 square feet of living area and have relatively similar features as the subject property. Appellant's comparables #1 and #3 are approximately 12 and 13 years older than the subject, respectively, with fewer bathrooms and smaller garages than the subject, suggesting upward adjustments to the comparables would be appropriate to make them more equivalent to the subject for these characteristics. Board of review comparables #1 and #3 are 17 and 26 years newer than the subject, respectively, suggesting downward adjustments to the comparables for age would be appropriate. These four comparables have improvement assessments that range from \$40,987 to \$72,227 or from \$7.81 to \$13.92 per square foot of living area. The subject's improvement assessment of \$55,795 or \$9.60 per square foot of living area falls within the range established by the best comparables in

this record and is well supported after considering the suggested adjustments to make the comparables more equal to the subject property. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
