

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Brian Ladeairous
DOCKET NO.: 20-35869.001-R-1
PARCEL NO.: 15-13-108-029-0000

The parties of record before the Property Tax Appeal Board are Brian Ladeairous, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,046
IMPR.: \$52,004
TOTAL: \$55,050

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of masonry exterior construction with 6,143 square feet of building area. The building is approximately 52 years old. Features of the building include a basement finished with an apartment and six full bathrooms.¹ The property has a 4,687 square foot site and is located in Forest Park, Proviso Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant, through counsel, marked contention of law and lack of assessment equity concerning the improvement as the bases of the appeal. However, the counsel's brief is the same as the inequity argument, uniformity of assessment. The appellant contends assessment inequity

¹ Property characteristics of the subject not disclosed by the appellant were gleaned from the evidence presented by the board of review.

with respect to the improvement as the basis of the appeal. In support of the inequity argument, the appellant submitted information on two grid analyses for five equity comparables located in the same neighborhood code as the subject property. For clarity in the record, the single comparable on the second grid was renumbered #5. The comparables are improved with 2-story, class 2-11 multi-family buildings of frame or masonry exterior construction ranging in size from 3,446 to 6,120 square feet of building area. The comparables range in age from 49 to 112 years old. The comparables each have a basement, four which are finished with either an apartment or a recreation room. One comparable has a 3-car garage. The comparables have improvement assessments ranging from \$24,373 to \$47,491 or from \$6.35 to \$7.76 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$44,905 or \$7.31 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$55,050. The subject property has an improvement assessment of \$52,004 or \$8.47 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with 2-story, class 2-11 multi-family buildings of frame or masonry exterior construction ranging in size from 2,332 to 5,457 square feet of building area. The comparables range in age from 54 to 128 years old. The comparables each have a basement, two of which are finished with either an apartment or a recreation room. One comparable has central air conditioning. One comparable has a 1-car garage. The comparables have improvement assessments ranging from \$20,602 to \$46,198 or from \$8.47 to \$10.42 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparable #1 and board of review comparable #1 which are most similar to the subject in location, design, age, dwelling size, and features. The comparables have improvement assessments of \$33,662 and \$46,198 or \$6.35 and \$8.47 per square foot of building area, respectively. The subject's improvement assessment of \$52,004 or \$8.47 per square foot of building area falls above the improvement assessments of the two most similar best comparables in this record on an overall basis but matches board of review comparable #1 on a per square foot basis. The Board gives less weight to the parties' remaining comparables due to differences in dwelling size, age, and/or amenities

when compared to the subject. Based on this record and after considering adjustments to the two best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
