

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dualing R's LLC
DOCKET NO.: 20-35890.001-R-1
PARCEL NO.: 29-06-102-009-0000

The parties of record before the Property Tax Appeal Board are Dualing R's LLC, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,799
IMPR.: \$24,601
TOTAL: \$26,400

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story multi-family building of masonry exterior construction with 4,963 square feet of building area. The building is approximately 53 years old. Features of the building include a basement finished with an apartment. The property has a 7,198 square foot site and is located in Blue Island, Thornton Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant, through counsel, marked contention of law and lack of assessment equity concerning the improvement as the bases of the appeal. However, the counsel's brief is the same as the inequity argument, uniformity of assessment. In support of the inequity argument, the appellant submitted information on five equity comparables located in the same neighborhood code as the subject property. For clarity in the record, the single comparable on the second grid

was renumbered #5. The comparables are improved with 2-story, class 2-11 multi-family buildings of masonry exterior construction ranging in size from 4,963 to 5,832 square feet of building area. The comparables range in age from 54 to 56 years old. Each comparable has a basement finished with an apartment. The comparables have improvement assessments ranging from \$22,864 to \$26,795 or from \$4.41 to \$4.61 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$26,400. The subject property has an improvement assessment of \$24,601 or \$4.96 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located in the same neighborhood code as the subject property. Board of review comparable #4 is the same property as board of review comparable #1. The comparables are improved with 2-story, class 2-11 multi-family buildings of masonry exterior construction with each having 4,963 square feet of building area. The comparables are either 54 or 56 years old. Each comparable has a basement finished with an apartment. The comparables have improvement assessments ranging from \$24,643 to \$25,584 or either \$4.97 or \$5.15 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparable #5 and board of review comparables which are identical to the subject in dwelling size and overall most similar to the subject in location, design, age, and features. The comparables have improvement assessments ranging from \$22,864 to \$25,584 or from \$4.61 to \$5.15 per square foot of building area. The subject's improvement assessment of \$24,601 or \$4.96 per square foot of building area falls within the range established by the best comparables in this record. The Board gives less weight to the appellant's four remaining comparables due to differences in building size when compared to the subject. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
