

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: BMR Prop 14408 University
DOCKET NO.: 20-37468.001-R-1
PARCEL NO.: 29-02-323-018-0000

The parties of record before the Property Tax Appeal Board are BMR Prop 14408 University, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,860
IMPR.: \$3,311
TOTAL: \$5,171

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction containing 1,025 square feet of living area. The dwelling is approximately 65 years old. Features of the home include a crawl space foundation, central air conditioning and a 2-car garage. The property has an approximately 4,960 square foot site and is located in Dolton, Thornton Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted three equity comparables that are located in the same assessment neighborhood code as the subject property. The comparables are improved with class 2-03, 1-story dwellings of masonry exterior construction ranging in size from 1,013 to 1,125 square feet of living area. The dwellings range in age from 61 to 63 years old. One comparable has a basement with finished area and two comparables have a crawl space or a concrete slab foundation. Two comparables have central air conditioning and each

comparables has either a 2-car or a 2.5-car garage. The comparables have improvement assessments that range from \$2,810 to \$4,316 or from \$2.50 to \$3.87 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$3,311 or \$3.23 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$8,174. The subject property has an improvement assessment of \$6,314 or \$6.16 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same assessment neighborhood code as the subject property. The comparables are improved with class 2-03, 1-story dwellings of masonry exterior construction ranging in size from 1,028 to 1,035 square feet of living area. The dwellings range in age from 64 to 66 years old. Each comparable has an unfinished basement. Two comparables have central air conditioning and one comparable has a 1-car garage. The comparables have improvement assessments that range from \$6,877 to \$7,032 or from \$6.65 to \$6.84 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains seven suggested equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparable #3 as well as the board of review comparables due to their feature of a basement when compared to the subject's crawl space foundation.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #2. The Board finds that these two comparables are most similar to the subject in location, design, age, dwelling size and features. These two most similar comparables have improvement assessments \$2,810 and \$3,372 or \$2.50 and \$3.33 per square foot of living area. The subject's improvement assessment of \$6,314 or \$6.16 per square foot of living area, falls above the improvement assessments of the two best comparables in the record. Therefore, based on this record the Board finds a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
