

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lou Oviedo
DOCKET NO.: 20-39449.001-R-1
PARCEL NO.: 15-07-401-063-0000

The parties of record before the Property Tax Appeal Board are Lou Oviedo, the appellant, by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,850
IMPR.: \$14,519
TOTAL: \$17,369

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a split-level dwelling of frame and masonry exterior construction with 1,215 square feet of living area. The dwelling is approximately 57 years old. Features include a partial basement with finished area and a two-car garage. The property has a 6,000 square foot site and is located in Berkeley, Proviso Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity concerning the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables with parcel printouts providing additional information. The comparables are each located in the same neighborhood code as is assigned to the subject and within .2 of a mile from the subject. The dwellings are class 2-34 split-level homes of masonry or frame and masonry

exterior construction. The homes are either 49 or 53 years old and contain either 1,251 or 1,500 square feet of living area. Each comparable has a partial basement with finished area, central air conditioning and a two-car garage. Two of the homes each have a fireplace. The comparables have improvement assessments ranging from \$14,174 to \$17,145 or from \$11.33 to \$11.43 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$17,369. The subject property has an improvement assessment of \$14,519 or \$11.95 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as is assigned to the subject and either on the same block or subarea of the subject. The dwellings are class 2-34 split-level homes of frame and masonry exterior construction. The homes range in age from 52 to 58 years old and range in size from 1,090 to 1,300 square feet of living area. Each comparable has a partial basement with finished area, central air conditioning and from a 1.5 to a 2.5-car garage. The comparables have improvement assessments ranging from \$14,330 to \$15,539 or from \$11.95 to \$13.29 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the appellant's comparables #2 and #3 which are larger than the subject dwelling.

The Board finds the best evidence of assessment equity to be appellant's comparable #1 along with the board of review comparables which are each most similar to the subject in location, size, age and/or most features. These comparables have improvement assessments ranging from \$14,174 to \$15,539 or from \$11.33 to \$13.29 per square foot of living area. The subject's improvement assessment of \$14,519 or \$11.95 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject dwelling, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
