

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Maria Campos
DOCKET NO.: 20-39805.001-R-1
PARCEL NO.: 19-22-102-020-0000

The parties of record before the Property Tax Appeal Board are Maria Campos, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,750
IMPR.: \$11,463
TOTAL: \$15,213

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 1,000 square feet of living area. The dwelling is approximately 43 years old. Features of the home include an unfinished basement and a 2-car garage. The property has a 3,750 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same neighborhood code as the subject property. The comparables are improved with class 2-03 dwellings of masonry exterior construction ranging in size from 1,212 to 1,572 square feet of living area. The homes range in age from 60 to 67 years old. Each comparable has an unfinished basement, central air conditioning, and a 2-car garage. The

comparables have improvement assessments that range from \$10,295 to \$13,995 or from \$8.27 to \$9.18 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$8,660 or \$8.66 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$15,213. The subject property has an improvement assessment of \$11,463 or \$11.46 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables with the same neighborhood code as the subject property. The comparables are improved with 1-story class 2-03 dwellings of masonry exterior construction ranging in size from 1,056 to 1,200 square feet of living area. The homes range in age from 46 to 56 years old. Each comparable has a basement with three having finished area and a 2-car garage. Two comparables each have central air conditioning. The comparables have improvement assessments that range from \$13,063 to \$16,204 or from \$12.32 to \$13.50 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties provided eight suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board gives less weight to the appellant's comparables and board of review comparable #4 which differ from the subject in dwelling size and/or age.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2, and #3 which are more similar to the subject in dwelling size with varying degrees of similarity in age and most features. Each comparable is an older comparable than the subject, two comparables each have basement finish which the subject lacks, and two comparables each have central air conditioning unlike the subject requiring various adjustments to make them more equivalent to the subject. These comparables have improvement assessments ranging from \$13,063 to \$13,832 or from \$12.32 to \$13.10 per square foot of living area. The subject's improvement assessment of \$11,463 or \$11.46 per square foot of living area falls below the range established by the best comparables in this record. Based on this record and after considering the various adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
