

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David W. Snyder
DOCKET NO.: 20-39983.001-R-1
PARCEL NO.: 04-23-201-066-0000

The parties of record before the Property Tax Appeal Board are David W. Snyder, the appellant, by attorney Paula Raila of Raila & Associates, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,657
IMPR.: \$77,597
TOTAL: \$81,254

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of masonry exterior construction with 2,890 square feet of living area. The dwelling is approximately 19 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a two-car garage. The property has a 3,568 square foot site and is located in Northfield, Northfield Township, Cook County. The subject is classified as a class 2-95 townhome or row house property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted property characteristic printouts and a grid analysis with information on four equity comparables that are located on the same street and within the same block as the subject property. The comparables each have the same assessment neighborhood code and property classification code as the subject. According to the

property characteristic printouts, the comparables are improved with 1.5 to 1.9-story dwellings of masonry exterior construction containing 2,354 or 2,570 square feet of living area. The dwellings are 16 or 19 years old. Each comparable has a full unfinished basement, central air conditioning, a fireplace and a two-car garage. The comparables have improvement assessments that range from \$50,825 to \$62,886 or from \$21.59 to \$24.47 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$66,811 or \$23.12 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$81,254. The subject property has an improvement assessment of \$77,597 or \$26.85 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located on the same street and within the same block as the subject property. The comparables each have the same assessment neighborhood code and property classification code as the subject. The comparables are improved with two-story dwellings of masonry exterior construction containing 2,450 or 2,890 square feet of living area. The dwellings are from 13 to 19 years old. Each comparable has a full unfinished basement, central air conditioning, a fireplace and a two-car garage. The comparables have improvement assessments that range from \$65,888 to \$77,616 or from \$26.86 to \$27.20 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight suggested equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparables #1 and #2 which are 19% smaller in dwelling size when compared to the subject, less similar than the remaining comparables in the record.

The Board finds the best evidence of assessment equity to be the appellant's comparables #3 and #4, along with the comparables submitted by the board of review, which are similar to the subject in location, design, and features. However, the Board finds that of these six comparables board of review comparable #2 is identical to the subject in dwelling size and age. The five remaining comparables are from 11% to 15% smaller in dwelling size and three of these comparables are somewhat newer in age when compared to the subject, suggesting adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, these best comparables have improvement assessments ranging from \$62,285 to \$77,616 or from

\$24.24 to \$27.20 per square foot of living area. The subject's improvement assessment of \$77,597 or \$26.85 per square foot of living area falls within the range established by the best comparables in the record. Moreover, the subject's improvement assessment is well supported by board of review comparable #2, the most similar comparable in the record which has an improvement assessment of \$77,616 or \$26.86 per square foot of living area. Therefore, based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
