

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Scott Trowbridge
DOCKET NO.: 20-40149.001-R-1
PARCEL NO.: 27-31-105-029-0000

The parties of record before the Property Tax Appeal Board are Scott Trowbridge, the appellant, by attorney Dimitrios Trivizas, of Dimitrios P. Trivizas, Ltd. in Skokie, and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,561
IMPR.: \$19,860
TOTAL: \$22,421

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and brick exterior construction with 1,857 square feet of living area. The dwelling is 26 years old. Features of the home include a full basement, central air conditioning, a fireplace, and a two-car garage. The property has a 2,329 square foot site and is located in Orland Park, Orland Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables improved with two-story, class 2-95 dwellings of frame and brick exterior construction that contain 2,173 square feet of living area. The homes are 26 years old. Each comparable has a full basement, central air conditioning, a fireplace, and a two-car garage. The

comparables have the same assessment neighborhood code as the subject and are located from 0.36 to 0.40 of a mile from the subject property. Each comparable has an improvement assessment of \$18,757 or \$8.63 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$16,026.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$22,421. The subject property has an improvement assessment of \$19,860 or \$10.69 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with two-story, class 2-95 dwellings of frame and brick exterior construction that have 1,857 square feet of living area. The homes are either 24 or 25 years old. Each comparable has a full basement, central air conditioning, a fireplace, and a two-car garage. The comparables are located on the same block as the subject property and have improvement assessments that range from \$19,942 to \$20,021 or from \$10.74 to \$10.78 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains seven equity comparables submitted by the parties to support their respective positions. The Board gives less weight to the appellant's comparables due to differences from the subject dwelling in terms of size. The Board finds the best evidence of assessment equity to be the board of review's comparables. These comparables are located on the same block as the subject property and are identical to the subject dwelling in terms of square feet of living area as well as amenities. These comparables have improvement assessments that range from \$19,942 to \$20,021 or from \$10.74 to \$10.78 per square foot of living area. The subject's improvement assessment of \$19,860 or \$10.69 per square foot of living area falls below the range, in terms of its overall improvement assessment, and within the range on a per square foot basis established by the best comparables in the record. Based on this evidence, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
