

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steven Gutman
DOCKET NO.: 20-41370.001-R-1
PARCEL NO.: 04-20-203-020-0000

The parties of record before the Property Tax Appeal Board are Steven Gutman, the appellant, by attorney Adam E. Bossov of the Law Offices of Adam E. Bossov, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,942
IMPR.: \$25,932
TOTAL: \$37,874

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 1,839 square feet of living area. The dwelling is approximately 47 years old. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a two-car garage. The property has a 10,164 square foot site and is located in Glenview, Northfield Township, Cook County. The subject is classified as a class 2-07 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are improved with dwellings of frame and masonry exterior construction ranging in size from 1,738 to 1,965 square feet of living area. The dwellings are 47

to 53 years old. Each comparable has a partial unfinished basement, a fireplace and a two-car garage. Three comparables have central air conditioning. The comparables have improvement assessments that range from \$15,351 to \$24,145 or from \$8.83 to \$12.29 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$20,781 or \$11.30 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$37,874. The subject property has an improvement assessment of \$25,932 or \$14.10 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that have the same assessment neighborhood code and property classification code as the subject. The comparables are improved with two-story dwellings of frame and masonry exterior construction that are 47 years old and each has 1,839 square feet of living area. Each comparable has a partial unfinished basement, central air conditioning, a fireplace and a two-car garage. Comparable #3 has other improvements but the board of review did not provide a description of these improvements. The comparables have improvement assessments of \$25,932 and \$26,025 or \$14.10 and \$14.15 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight comparable properties for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2 and #4 which are less similar to the subject in dwelling size than are the remaining comparables in the record. Additionally, the appellant's comparable #2 has no central air conditioning, a feature of the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #3, along with the board of review comparables, which are similar to the subject in location and identical to the subject in dwelling size, age and some features. These best comparables have improvement assessments ranging from \$22,203 to \$26,025 or from \$12.07 to \$14.15 per square foot of living area. The subject's improvement assessment of \$25,932 or \$14.10 per square foot of living area falls within the range established by the best comparables in the record and is also identical to three of the five best comparables. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
