

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stanley Mozdzen  
DOCKET NO.: 20-42917.001-R-1  
PARCEL NO.: 32-10-201-024-0000

The parties of record before the Property Tax Appeal Board are Stanley Mozdzen, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$5,725  
**IMPR.:** \$20,975  
**TOTAL:** \$26,700

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a three-story, multi-family building of masonry exterior construction with 6,648 square feet of building area. The building is approximately 50 years old and has a concrete slab foundation. The property has a 15,268 square foot site and is located in Glenwood, Bloom Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased by the appellant on June 13, 2019 for a price of \$267,000. The appellant completed Section IV of the Residential Appeal petition disclosing the subject property was purchased from 452 Glenwood Dyer Road, LLC (the seller), the sale did not involve family members or related corporations; the subject was sold by Thomas Heitzman, who is a realtor with Marcus and Millichap, and the property was advertised for sale with a Multiple Listing Service (MLS) for 60 days. To document the sale, the

appellant submitted a copy of the Settlement Statement which further disclosed that real estate commissions were paid to the Law Office of Patrick J. Doherty and Marcus and Millichap.

In further support of the overvaluation argument, the appellant submitted information on two comparables, one of which sold, that are located within close proximity to the subject. The Board will not examine comparable #2 any further since only equity data was provided for this comparable, which is not responsive to the appellant's overvaluation argument. Comparable sale #1 has a 15,120 square foot site improved with a class 2-11, three-story building of masonry exterior construction with 6,270 square feet of living area and is 45 years old. The comparable sold in November 2018 for a price of \$160,000 or \$25.52 per square foot of living area, land included.

Based on this evidence, the appellant requested the subject's total assessment be reduced to reflect its purchase price of \$26,700.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$45,439. The subject's assessment reflects a market value of \$454,390 or \$68.35 per square foot of living area, land included, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

In support of its contention of the correct assessment, the board of review submitted information on two comparable sales located in the same neighborhood code and the same block as the subject. The Board will not consider comparable sale #2 any further in this analysis, as it was reported as being sold for a price of \$1, and is considered by the Board to be an outlier in relation to the other comparables in this record. The comparable #1 has a 17,500 square foot site improved with a class 2-11, three-story masonry building with masonry exterior construction that has 6,270 square feet of living area, a concrete slab foundation, and is 48 years old. Comparable #1 sold in June 2019 for \$266,000 or \$42.42 per square foot of living area. The appellant also disclosed within the grid analysis the subject property sold in June 2019 for \$266,994. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in June 2019 for a price of \$267,000. The appellant provided evidence demonstrating the sale had the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the Residential Appeal petition disclosing the parties to the transaction were not related, the property was sold using a realtor, the property had been advertised on the open market with a Multiple Listing Service for approximately 60 days. In further support of the transaction the

appellant submitted a copy of the settlement statement disclosing real estate commissions were paid to the Law Office of Patrick J. Doherty and Marcus and Millichap. In addition, the board of review comparable sale #1, which is similar to the subject in location and property characteristics sold June 2019 for \$266,000 for less than the sale price of the subject property. The Board finds the subject's purchase price of \$267,000 is below the market value reflected by its assessment of \$454,390. The Board gives less weight to the appellant's comparable sale #1 that sold in 2018 as it is less likely to reflect the subject's market value as of its assessment date on January 1, 2020.

Based on this record, the Board finds a reduction in the subject's assessment to reflect its purchase price is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
