

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Greg Wozniak  
DOCKET NO.: 20-46871.001-R-1  
PARCEL NO.: 04-35-114-035-0000

The parties of record before the Property Tax Appeal Board are Greg Wozniak, the appellant(s), by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,069  
**IMPR.:** \$59,595  
**TOTAL:** \$63,664

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

Appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 3,130 square foot parcel of land improved with a 12-year-old, two-story, masonry, single-family dwelling, containing 2,649 square feet of living area. The property is located in Glenview, Northfield Township, Cook County and is a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

Appellant contends overvaluation and assessment inequity as the bases of the appeal. In support of its overvaluation argument, appellant submitted sales information on two comparable sales properties that sold between January and September of 2019 for prices ranging between \$211.55 to \$314.57 per square foot of living area, including land. Each of the comparable sales was improved with a single-family dwelling of either masonry or frame and masonry construction. They ranged from 1,641 to 1,812 square feet of living area and from 12 to 27 years of age. The petition discloses the subject is not an owner-occupied residence.

In support of its assessment inequity argument, appellant submitted information on four suggested equity comparables. They were each improved with a 27-year-old, two-story, single-family dwelling of frame and masonry construction. They ranged in size between 1,800 and 1,801 square feet of living area and in improvement assessment between \$18.83 and \$19.40 per square foot of living area. Appellant also included a copy of the board of review's written decision reflecting a final assessment for the subject property of \$63,664. Based on this evidence, appellant requested a reduction in the subject's assessment to \$55,844.

The board of review submitted its "Board of Review Notes on Appeal" depicting a total assessed valuation of \$63,664, with an improvement assessment of \$59,595, or \$22.50 per square foot of living area. The subject's assessment reflects a market value of \$636,640, or \$240.33 per square foot of living area when applying the level of assessment for class 2 property of 10.00% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment, the board of review submitted three comparable properties. Each of the comparable properties were improved with a 12-year-old, two-story, single-family dwelling, of masonry construction. They ranged in size between 1,812 and 2,621 square feet of living area and in assessment between \$22.51 and \$24.33 per square foot of living area. One of the board of review's comparables sold in September of 2019 for \$314.57 per square foot of living area, including land.

In rebuttal, appellant submitted a letter stating all of the board of review's comparables are superior to the subject property in size, construction, and/or amenities.

This matter was set to proceed to hearing. Prior to hearing, the parties submitted a written request to waive hearing and for this matter be written on the evidence previously submitted. The administrative law judge granted the parties' request.

### **Conclusion of Law**

Appellant contends overvaluation and assessment inequity as the bases of the appeal.

Turning to the appellant's market value argument, appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted on the basis of market value.

The Board finds the best evidence of market value to be appellant's sales comparables #1 and #2 and the board of review's comparable #2. These properties sold for prices ranging between \$211.55 to \$314.57 per square foot of living area, including land. They were the only three sales comparables submitted by the parties. The Board notes the board of review's comparable #2 is the same appellant's sales comparable #1. The subject's current assessment of \$240.33 per square foot of living area, including land, reflects a market value within the market value

established by the best comparables in this record. Based on this record, the Board finds appellant has not proven, by a preponderance of the evidence, that the subject is overvalued, and that a reduction in the subject's assessment is not warranted on the basis of market value.

The taxpayer also contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds appellant *did not meet* this burden of proof and a reduction in the subject's assessment *is not* warranted.

The Board finds the best evidence of assessment equity to be *appellant's comparable #1 and the board of review's comparables #1, #2, and #3*. The best comparables were most similar to the subject property in living area square footage, construction, and/or amenities. The best comparables had improvement assessments that ranged from \$22.51 to \$24.33 per square foot of living area. The subject's improvement assessment of \$22.50 per square foot of living area falls below the range established by the best comparables in this record. Based on this record, the Board finds appellant *did not* demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment *is not* justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
