

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stachurski Wieslaw
DOCKET NO.: 20-47076.001-R-1
PARCEL NO.: 10-30-326-011-0000

The parties of record before the Property Tax Appeal Board are Stachurski Wieslaw, the appellant, by attorney Andrew S. Dziuk, of Andrew Dziuk, Esq. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,121
IMPR.: \$20,284
TOTAL: \$26,405

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1-story dwelling of masonry exterior construction with 1,097 square feet of living area. The dwelling is approximately 63 years old. Features of the home include an unfinished basement, central air conditioning, and a 2-car garage. The property has a 7,420 square foot site and is located in Niles, Niles Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject property, along with property characteristic printouts for the subject and the comparables. Based on the property printouts, the comparables are improved with 1-story, class 2-03 dwellings of masonry exterior construction

ranging in size from 1,091 to 1,290 square feet of living area. The homes range in age from 54 to 65 years old. Each comparable has a basement, three of which have finished area, and a 2-car garage. Three comparables each have central air conditioning and one comparable has one fireplace. The comparables have improvement assessments ranging from \$18,241 to \$20,013 or from \$14.14 to \$16.92 per square foot of living area. Based on this evidence, the appellant requested that the subject's total improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$26,405. The subject property has an improvement assessment of \$20,284 or \$18.49 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with 1-story, class 2-03 dwellings of masonry exterior construction ranging in size from 1,012 to 1,042 square feet of living area. The homes are either 62 or 64 years old. Each comparable has a basement, three of which have finished area, and either a 2-car or a 2.5-car garage. Three comparables each have central air conditioning. The comparables have improvement assessments ranging from \$20,075 to \$21,106 or from \$19.57 to \$20.47 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested equity comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be the appellant's comparables #3 and #4 as well as the board of review comparables which are most similar to the subject in dwelling size with varying degree of similarity in other features. These comparables have improvement assessments that range from \$18,455 to \$21,106 or from \$16.86 to \$20.47 per square foot of living area. The subject's improvement assessment of \$20,284 or \$18.49 per square foot of living area falls within the range established by the best comparables in this record. The Board gives less weight to the appellant's comparables #1 and #2 as they are less similar in dwelling size when compared to the subject. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
