

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANTS: Sargiz & Frances Lazar
DOCKET NO.: 20-47287.001-R-1
PARCEL NO.: 10-35-102-051-0000

The parties of record before the Property Tax Appeal Board are Sargiz & Frances Lazar, the appellants, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,920
IMPR.: \$22,479
TOTAL: \$30,399

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of masonry exterior construction with 1,470 square feet of living area. The home is approximately 59 years old. Features of the home include a basement with finished area, central air conditioning, one fireplace, and a 2-car garage. The property has a 7,920 square foot site located in Lincolnwood, Niles Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellants contend assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellants submitted information on five equity comparables that are located within the same neighborhood code as the subject property. The comparables are each improved with class 2-34 multi-level dwellings of masonry exterior construction ranging in size from 1,800 to 2,224 square feet of living area. The homes are from

53 to 64 years old. Each comparable has a basement with finished area and central air conditioning. One comparable has one fireplace and four comparables have from a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$22,852 to \$28,016 or from \$11.72 to \$13.55 per square foot of living area. Based on this evidence, the appellants requested that the subject's improvement assessment be reduced.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$30,399. The subject property has an improvement assessment of \$22,479 or \$15.29 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information four equity comparables that are located within the same neighborhood code. The comparables are improved with class 2-34 multi-level dwellings of masonry exterior construction ranging in size from 1,290 to 1,495 square feet of living area. The homes are from 52 to 58 years old. Each comparable has a basement with finished area. Three comparables each have central air conditioning and a 2-car garage. Two comparables each have one fireplace. The comparables have improvement assessments ranging from \$24,636 to \$25,912 or from \$16.48 to \$19.94 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board finds the best evidence of assessment equity to be board of review comparables #1, #3, and #4. These comparables are overall more similar to the subject in location, design, age, dwelling size, and most features. These comparables have improvement assessments ranging from \$24,636 to \$25,912 or from \$16.48 to \$18.11 per square foot of living area. The subject property's improvement assessment of \$22,479 or \$15.29 per square foot of living area falls below the range established by the best comparables in this record. The Board gives less weight to the appellants' comparables as well as board of review comparable #2 due to differences in dwelling size and/or garage amenity when compared to the subject. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
