

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Larry Thomas
DOCKET NO.: 21-00551.001-R-1
PARCEL NO.: 07-32-401-012

The parties of record before the Property Tax Appeal Board are Larry Thomas, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.¹

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$26,233
IMPR.: \$172,819
TOTAL: \$199,052

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of wood siding exterior construction with 2,910 square feet of living area. The dwelling was constructed in 2002 and is approximately 19 years old. Features of the home include a walk-out basement with finished area, central air conditioning, two fireplaces and a 575 square foot garage. The property has an approximately 12,220 square foot site and is located in Gurnee, Warren Township, Lake County.

The appellant contends assessment inequity, with respect to the improvement assessment, as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same assessment neighborhood code as the subject. The comparables are improved with 1-story or 1.5-story dwellings of brick and wood siding exterior

construction that range in size from 2,478 to 3,368 square feet of living area. The homes range in age from 17 to 29 years old. Each comparable has a basement with finished area, three of which are walk-out in style. Each home has central air conditioning, one or two fireplaces and a garage ranging in size from 552 to 750 square feet of building area. The comparables have improvement assessments that range from \$126,517 to \$176,612 or from \$51.06 to \$54.50 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$152,484 or \$52.40 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$199,052. The subject has an improvement assessment of \$172,819 or \$59.39 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located in the same assessment neighborhood code as the subject property. The comparables are improved with 1.5-story dwellings of wood siding exterior construction with 2,636 or 2,841 square feet of living area. The homes were built from 1999 to 2003. Each comparable has a basement with finished area, two of which are walk-out in style. The homes each have central air conditioning, one or two fireplaces and either a 552 or 700 square foot garage. The comparables have improvement assessments that range from \$154,955 to \$167,344 or from \$58.78 to \$59.89 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments, for the assessment year in question, of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven equity comparables for the Board's consideration. The Board gives less weight to appellant comparables #1, #2 and #3 which differ from the subject in design and are somewhat older in age when compared to the subject and other properties in the record.

The Board finds the best evidence of assessment equity to be appellant comparable #4 along with the board of review comparables which are more similar to the subject in location, age, design, basement style and finished area and other features, although each of these homes have a slightly smaller dwelling size when compared to the subject. These comparables have improvement assessments that range from \$143,161 to \$167,344 or from \$54.50 to \$59.89 per square foot of living area. The subject's improvement assessment of \$172,819 or \$59.39 per square foot of living area falls slightly above the range established by the best comparables in this record on an improvement assessment basis and within the range on a per square foot basis. Given the subject's slightly larger dwelling size, relative to the best comparables in the record, a higher improvement assessment appears to be supported. Therefore, after considering appropriate

adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence in this record.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
