

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Prarit Sehgal
DOCKET NO.: 21-00837.001-R-1
PARCEL NO.: 15-16-304-048

The parties of record before the Property Tax Appeal Board are Prarit Sehgal, the appellant, by attorney Eric Feldman, of Eric Feldman & Assoc. P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$47,501
IMPR.: \$130,195
TOTAL: \$177,696

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of wood siding exterior construction with 3,453 square feet of living area. The dwelling was constructed in 1991. Features of the home include a basement, central air conditioning, a fireplace and a 405 square foot garage. The property has a 15,730 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on five comparable sales located within .73 of a mile from the subject property. The comparables have sites that range in size from 12,200 to 29,520 square feet of land area and are improved with two-story dwellings of wood siding exterior construction ranging in size from 3,378 to 3,453 square feet of living area. The dwellings were built from 1988 to 1991. The comparables have basements with one having finished area. Each

comparable has central air conditioning and a garage ranging in size from 405 to 781 square feet of building area. Four comparables each have one fireplace. The properties sold from May to September 2020 for prices ranging from \$473,000 to \$557,000 or from \$138.91 to \$161.31 per square foot of living area, land included. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$194,108. The subject's assessment reflects a market value of \$583,783 or \$169.07 per square foot of living area, land included, when using the 2021 three-year average median level of assessment for Lake County of 33.25% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on five comparable sales located within .72 of a mile from the subject property. The comparables have sites that range in size from 13,410 to 30,660 square feet of land area and are improved with two-story dwellings of wood siding or wood siding and brick exterior construction that range in size from 3,110 to 3,562 square feet of living area. The homes were built from 1988 to 1991. The comparables have basements, three with finished area. Each comparable has central air conditioning, one fireplace and a garage ranging in size from 405 to 704 square feet of building area. The properties sold from July 2020 to September 2021 for prices ranging from \$570,000 to \$660,000 or from \$168.74 to \$212.22 per square foot of living area, land included. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales, or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains ten comparable sales for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #4 as well as the board of review comparables due to differences in site size, finished basement area and garage size when compared to the subject.

The Board finds the best evidence of market value to be appellant's comparables #2, #3 and #5 which overall are more similar to the subject in location, age, design, dwelling size and features. These comparables sold in May or June 2020 for prices ranging from \$473,000 to \$530,000 or from \$138.91 to \$156.90 per square foot of living area, including land. The subject's assessment reflects a market value of \$583,783 or \$169.07 per square foot of living area, including land, which falls above the range established by the best comparable sales in this record. After considering appropriate adjustments to the comparables for differences from the subject, the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
