

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Cynthia Powell  
DOCKET NO.: 21-01064.001-R-1  
PARCEL NO.: 15-09-104-038

The parties of record before the Property Tax Appeal Board are Cynthia Powell, the appellant, by attorney Eric Feldman of Eric Feldman & Assoc. P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$35,337  
**IMPR.:** \$157,319  
**TOTAL:** \$192,656

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of wood siding exterior construction with 3,075 square feet of living area. The dwelling was constructed in 2006. Features of the home include a basement with finished area, central air conditioning, a fireplace and a 441 square foot garage. The property has a 13,860 square foot site and is located in Vernon Hills, Vernon Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on five comparable sales that have the same assessment neighborhood code as the subject and are located within .26 of a mile from the subject property. The comparables have sites that range in size from 13,200 to 18,100 square feet of land area. The comparables are improved with two-story dwellings of wood siding exterior construction ranging in size from 2,481 to 3,602 square feet of living area. The dwellings were built from

1989 to 1991. The comparables each have a basement, one of which has finished area. Each comparable has central air conditioning, one or two fireplaces and a garage ranging in size from 441 to 651 square feet of building area. The comparables sold from April 2020 to September 2021 for prices ranging from \$455,000 to \$600,000 or from \$149.47 to \$193.07 per square foot of living area, including land. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$192,656. The subject's assessment reflects a market value of \$579,417 or \$188.43 per square foot of living area, land included, when using the 2021 three-year average median level of assessment for Lake County of 33.25% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on five comparable sales that have the same assessment neighborhood code as the subject and are located within .28 of a mile from the subject property. The board of review's comparable #3 is the same property as the appellant's comparable #4.<sup>1</sup> The comparables have sites that range in size from 12,720 to 19,090 square feet of land area. The comparables are improved with two-story dwellings of wood siding exterior construction ranging in size from 2,740 to 3,630 square feet of living area. The dwellings were built from 1989 to 1991. The comparables each have a basement, three of which have finished area. Each comparable has central air conditioning, one or two fireplaces and garage ranging in size from 462 to 690 square feet of building area. The comparables sold from May 2020 to October 2021 for prices ranging from \$532,500 to \$657,000 or from \$174.02 to \$209.85 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine suggested comparable sales for the Board's consideration, as one sale was common to the parties. The Board has given less weight to the appellant's comparables #2, #3 and #5, as well as board of review comparable #4 due to their less similar dwelling sizes when compared to the subject.

The Board finds the best evidence of market value to be parties remaining comparables, which are similar to the subject in location, dwelling size, design and some features. However, the Board finds these five comparables have dwellings that are older in age and somewhat smaller in size when compared to the subject dwelling and three of the five comparables lack finished

basement area, a feature of the subject, suggesting upward adjustments would be required to make the comparables more equivalent to the subject. Nevertheless, the comparables sold from April 2020 to May 2021 for prices ranging from \$455,000 to \$575,000 or from \$149.47 to \$209.85 per square foot of living area, including land. The subject's assessment reflects a market value of \$579,417 or \$188.43 per square foot of living area, including land, which falls above the overall price range established by the best comparable sales in the record but within the range on a price per square foot basis. The Board finds the subject's higher overall market value appears to be justified given its superior age, dwelling size and features. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
