

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Saliba
DOCKET NO.: 21-01078.001-R-1
PARCEL NO.: 15-08-210-006

The parties of record before the Property Tax Appeal Board are Paul Saliba, the appellant, by attorney Eric Feldman of Eric Feldman & Assoc. P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$20,654
IMPR.: \$136,557
TOTAL: \$157,211

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a tri-level dwelling of wood siding exterior construction with 2,342 square feet of above ground living area. The dwelling was constructed in 1976 and has a reported effective age of 1985. Features of the home include a lower level with 1,092 square feet of finished area, central air conditioning, a fireplace and a 506 square foot garage. The property has a 9,910 square foot site and is located in Vernon Hills, Vernon Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on five comparable sales that have the same assessment neighborhood code as the subject and are located within .69 of mile from the subject property. The comparables have sites that range in size from 7,210 to 9,610 square feet of land area. The comparables are improved with tri-level dwellings of wood siding exterior construction containing 1,674 or 1,898 square feet of above ground living area. The dwellings were built

from 1975 to 1978. The comparables each have a lower level, two of which have 526 square feet of finished area. Each comparable has central air conditioning and a 462 square foot garage. Three comparables each have a fireplace. The comparables sold from January to December 2020 for prices ranging from \$265,000 to \$353,500 or from \$145.94 to \$186.25 per square foot of above ground living area, including land. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$157,211. The subject's assessment reflects a market value of \$472,815 or \$201.89 per square foot of above ground living area, land included, when using the 2021 three-year average median level of assessment for Lake County of 33.25% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on five comparable sales that have the same assessment neighborhood code as the subject and are located within .79 of a mile from the subject property. The board of review's comparable #3 is the same property as the appellant's comparable #3, where the appellant reported a sale in July 2020 for \$265,000 and the board of review reported a sale in November 2021 for \$455,000. The comparables have sites that range in size from 6,500 to 9,190 square feet of land area. The comparables are improved with tri-level dwellings of wood siding exterior construction ranging in size from 1,674 to 1,898 square feet of above ground living area. The dwellings were built from 1975 to 1978. The comparables each have a lower level, two of which have 526 square feet of finished area. Each comparable has central air conditioning, a fireplace and a 462 square foot garage. The comparables sold from April 2020 to November 2021 for prices ranging from \$313,000 to \$455,000 or from \$180.30 to \$241.94 per square foot of above ground living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains ten suggested comparable sales for the Board's consideration, as the common comparable sold twice. The Board has given less weight to the appellant's comparables #2, #4 and #5, as well as board of review comparables #2, #4 and #5 due to their considerably smaller dwelling sizes and lack of lower level finished area.

The Board finds the best evidence of market value to be the parties' remaining comparables, including the common comparable that sold twice. The Board finds the comparables are similar to the subject in location, design, age and some features. However, the board finds the comparable dwellings are more than 400 square feet smaller in size with less finished area in the lower level and smaller garage sizes when compared to the subject. Nevertheless, the

comparables sold from July 2020 to November 2021 for prices ranging from \$270,000 to \$455,000 or from \$145.94 to \$239.73 per square foot of above ground living area, including land. The subject's assessment reflects a market value of \$472,815 or \$201.89 per square foot of above ground living area, including land, which falls above the range established by the best comparable sales in the record in terms of overall market value but within the range on a price per square foot basis. The Board finds the subject's higher overall market value appears to be justified given its superior dwelling size, additional lower level finished area and larger garage size. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
