

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Blaine Barnett
DOCKET NO.: 21-01122.001-R-1
PARCEL NO.: 16-32-102-032

The parties of record before the Property Tax Appeal Board are Blaine Barnett, the appellant, by attorney Eric Feldman of Eric Feldman & Assoc. P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds ***a reduction*** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$53,257
IMPR.: \$225,252
TOTAL: \$278,509

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick and wood siding exterior construction with 3,860 square feet of living area. The dwelling was constructed in 2009. Features of the home include a basement, central air conditioning, a fireplace and a 484 square foot garage. The property has a 12,480¹ square foot site and is located in Deerfield, West Deerfield Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on three comparable sales that have the same assessment neighborhood code as the subject and are located within .45 of a mile from the subject property. Two comparables have sites that contain 14,550 or 16,270 square feet of land area. No site size

¹ The Board finds the only evidence of the subject's site size was provided by the board of review, which was not refuted by the appellant.

was provided for comparable #2. The comparables are improved with two-story dwellings of brick exterior construction ranging in size from 3,860 to 4,264 square feet of living area. The dwellings were built from 2003 to 2006. The comparables each have a basement, one of which has finished area. Each comparable has central air conditioning, a fireplace and a garage ranging in size from 686 to 779 square feet of building area. The comparables sold from January to July 2020 for prices ranging from \$795,000 to \$930,000 or from \$197.66 to \$218.11 per square foot of living area, including land. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$308,180. The subject's assessment reflects a market value of \$926,857 or \$240.12 per square foot of living area, land included, when using the 2021 three-year average median level of assessment for Lake County of 33.25% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on five comparable sales that have the same assessment neighborhood code as the subject and are located within .63 of a mile from the subject property. The comparables have sites that range in size from 10,120 to 16,200 square feet of land area. The comparables are improved with two-story or part one-story² and part two-story dwellings of brick, wood siding or brick and wood siding exterior construction ranging in size from 3,250 to 5,041 square feet of living area. The dwellings were built from 2007 to 2019. Each comparable has a basement, central air conditioning and a garage ranging in size from 462 to 875 square feet of building area. Four comparables each have one fireplace. The comparables sold from April 2019 to April 2021 for prices ranging from \$920,000 to \$1,235,000 or from \$244.99 to \$291.14 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The record contains eight suggested comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparable #2 due to its finished basement area, not a feature of the subject. The Board has given reduced weight to board of review comparables #2, #3, #4 and #5 due to differences from the subject in dwelling size or their sale dates occurred in 2019, less proximate in time to the lien date at issue than the remaining sales in the record.

² The board of review's comparable #2 has a ground floor area of 1,970 square feet with an above ground area of 5,041 square feet, suggesting this is a part two-story dwelling.

The Board finds the best evidence of market value to be the appellant's comparables #1 and #3, along with board of review comparables #1. The Board finds these three comparables sold proximate in time to the assessment date at issue and are similar to the subject in location, dwelling size, design, age and some features. The comparables sold from January 2020 to April 2021 for prices ranging from \$795,000 to \$920,000 or from \$197.66 to \$258.50 per square foot of living area, including land. The subject's assessment reflects a market value of \$926,857 or \$240.12 per square foot of living area, land included, which falls above the range established by the best comparable sales in the record in terms of overall market value and at the higher end of the range on a price per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's estimated market value as reflected by its assessment is excessive. Therefore, based on this record the Board finds a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
