

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sheryl Anderson  
DOCKET NO.: 21-01130.001-R-1  
PARCEL NO.: 09-13-211-013

The parties of record before the Property Tax Appeal Board are Sheryl Anderson, the appellant, by attorney Eric Feldman of Eric Feldman & Assoc. P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$29,644  
**IMPR.:** \$80,345  
**TOTAL:** \$109,989

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of vinyl siding and brick exterior construction with 3,226 square feet of living area. The dwelling was constructed in 2004. Features of the home include a basement, central air conditioning, a fireplace and a 700 square foot garage. The property has a 20,000 square foot site and is located in Wauconda, Wauconda Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on five comparable sales that have the same assessment neighborhood code as the subject and are located within .44 of a mile from the subject property. The comparables have sites that range in size from 9,910 to 16,410 square feet of land area. The comparables are improved with two-story dwellings of vinyl siding exterior construction ranging in size from 3,124 to 3,836 square feet of living area. The dwellings were built from 2003 to

2005. The comparables each have a basement, two of which have finished area. Each comparable has central air conditioning, a fireplace and a garage ranging in size from 520 to 580 square feet of building area. The comparables sold from January 2020 to February 2021 for prices ranging from \$220,000 to \$325,000 or from \$70.42 to \$95.93 per square foot of living area, including land. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$109,989. The subject's assessment reflects a market value of \$330,794 or \$102.54 per square foot of living area, land included, when using the 2021 three-year average median level of assessment for Lake County of 33.25% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on five comparable sales that are located within .60 of a mile from the subject property, four of which have the same assessment neighborhood code as the subject. The comparables have sites that range in size from 9,750 to 23,150 square feet of land area. The comparables are improved with two-story dwellings of vinyl siding or vinyl siding and brick exterior construction ranging in size from 3,180 to 3,313 square feet of living area. The dwellings were built from 2003 to 2006. The comparables each have a basement, two of which have finished area. Each comparable has central air conditioning and a garage ranging in size from 546 to 700 square feet of building area. Four comparables each have one fireplace. The comparables sold from October 2020 to August 2021 for prices ranging from \$350,000 to \$400,000 or from \$110.06 to \$123.99 per square foot of living area, including land.

The board of review noted that county comparable #5 is located in Fremont Township. The board of review asserted that this subdivision straddles the township line, but the average buyers and average realtors will not notice this nor would it affect their purchase decision as tax rates in the two townships are similar. The board of review contends that county comparable #1 is a model match to the subject that sold in August 2021 for \$400,000. The board of review stated that this is the best comparable for the subject property but it represents the absolute top of the market. The board of review asserted that the median and mode price per square foot value of all five county comparables and the appellant's comparable #1 and #4, indicate a price per square foot value of \$110.06, which would reflect a total assessment for the subject property of \$118,339.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains ten suggested comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparables #2, #4 and #5, as well as board of review

comparables #4 and #5 due to their larger dwelling sizes and/or finished basement areas when compared to the subject.

The Board finds the best evidence of market value to be the appellant's comparables #1 and #3, along with board of review comparables #1, #2 and #3, which are similar to the subject in location, dwelling size, design, age and some features. The comparables sold from December 2020 to August 2021 for prices ranging from \$220,000 to \$400,000 or from \$70.42 to \$123.99 per square foot of living area, including land. The subject's assessment reflects a market value of \$330,794 or \$102.54 per square foot of living area, including land, which falls within the range established by the best comparable sales in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds no reduction in the subject's estimated market value as reflected by its assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
