

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Christine Chicoine  
DOCKET NO.: 21-01169.001-R-1  
PARCEL NO.: 16-09-204-017

The parties of record before the Property Tax Appeal Board are Christine Chicoine, the appellant, by attorney Eric Feldman of Eric Feldman & Assoc. P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$94,927  
**IMPR.:** \$143,379  
**TOTAL:** \$238,306

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of brick exterior construction with 3,009 square feet of living area. The dwelling was constructed in 1961. Features of the home include a basement with finished area, central air conditioning, a fireplace and a 528 square foot garage. The property has a 20,160 square foot site and is located in Lake Forest, West Deerfield Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on five comparable sales that have the same assessment neighborhood code as the subject and are located within .78 of a mile from the subject property. The comparables have sites that range in size from 21,120 to 69,700 square feet of land area. The comparables are improved with 2-story dwellings of brick or wood siding and brick exterior construction ranging in size from 2,666 to 3,456 square feet of living area. The dwellings were

built from 1963 to 1967 with comparable #1 having a reported effective age of 1970. The comparables each have a basement, three of which have finished area. Each comparable has central air conditioning, one to three fireplaces and a garage ranging in size from 440 to 918 square feet of building area. The comparables sold from February 2020 to June 2021 for prices ranging from \$450,000 to \$830,000 or from \$155.33 to \$240.16 per square foot of living area, including land. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$238,306. The subject's assessment reflects a market value of \$716,710 or \$238.19 per square foot of living area, land included, when using the 2021 three-year average median level of assessment for Lake County of 33.25% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on seven comparable sales that have the same assessment neighborhood code as the subject and are located within .78 of a mile from the subject property. The board of review's comparable #1 is the same property as the appellant's comparable #5. The comparables have sites that range in size from 18,400 to 69,700 square feet of land area. The comparables are improved with 1.75-story or 2-story dwellings of brick, wood siding or brick and wood siding exterior construction ranging in size from 2,562 to 3,456 square feet of living area. The dwellings were built from 1953 to 1966. One comparable has a concrete slab foundation and six comparables each have a basement, three of which have finished area. Each comparable has central air conditioning, one to three fireplaces and a garage ranging in size from 504 to 918 square feet of building area. Comparable #5 has an inground swimming pool. The comparables sold from February to December 2020 for prices ranging from \$747,500 to \$975,000 or from \$240.16 to \$329.43 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eleven suggested comparable sales for the Board's consideration, as one sale was common to the parties. The Board has given less weight to the parties' common comparable, appellant's comparable #5/board of review comparable #1, as well as the appellant's comparable #4 and board of review comparables #2 and #6 due to differences from the subject in dwelling size. Furthermore, the parties' common comparable has a considerably larger site size when compared to the subject and board of review comparable #2 has a dissimilar concrete slab foundation when compared to the subject's basement foundation with finished area. The Board has also given less weight to board of review comparable #5 as it has an inground swimming pool, not a feature of the subject.

The Board finds the best evidence of market value to be the appellant's comparables #1, #2 and #3, along with board of review comparables #3, #4 and #7, which are similar to the subject in location, site size, dwelling size, design, age and some features. The comparables sold from February 2020 to June 2021 for prices ranging from \$450,000 to \$975,000 or from \$155.33 to \$307.09 per square foot of living area, including land. Furthermore, removing the low and high sales, appellant's comparable #3 and board of review comparable #4, results in a tighter value range from \$675,000 to \$865,000 or from \$200.95 to \$277.87 per square foot of living area, including land. The subject's assessment reflects a market value of \$716,710 or \$238.19 per square foot of living area, including land, which falls within the range established by the best comparable sales in this record and particularly well within the narrower range of sales after eliminating the low and high sales from the analysis. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds no reduction in the subject's estimated market value as reflected by its assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
