

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Imran Iqbal
DOCKET NO.: 21-01495.001-R-1
PARCEL NO.: 15-21-101-037

The parties of record before the Property Tax Appeal Board are Imran Iqbal, the appellant, by attorney Gregory Riggs of Tax Appeals Lake County in Lake Zurich; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$41,811
IMPR.: \$122,173
TOTAL: \$163,984

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of wood siding exterior construction with 2,533 square feet of living area. The dwelling was constructed in 1988. Features of the home include a basement with finished area, central air conditioning, a fireplace and a 420 square foot garage. The property has a 9,152 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on four comparable sales that have the same assessment neighborhood code as the subject and are located within .91 of a mile from the subject property. The comparables have sites that range in size from 8,896 to 11,492 square feet of land area. The comparables are improved with two-story dwellings of frame exterior construction containing 2,517 or 2,533 square feet of living area. The dwellings were each built in 1989 with

comparable #2 having a reported effective age of 1991. The comparables each have a basement with finished area.¹ Each comparable has central air conditioning and a 420 square foot garage. Three comparables each have a fireplace. The comparables sold from June 2019 to August 2020 for prices ranging from \$435,000 to \$465,000 or from \$172.82 to \$184.74 per square foot of living area, including land. Based on this evidence, the appellant requested the subject's assessment be reduced to \$153,318, which would reflect a market value of \$460,000 or \$181.60 per square foot of living area, including land, when using the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$163,984. The subject's assessment reflects a market value of \$493,185 or \$194.70 per square foot of living area, land included, when using the 2021 three-year average median level of assessment for Lake County of 33.25% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on five comparable sales, one of which has the same assessment neighborhood code as the subject and are located within .15 of a mile from the subject property. The comparables have sites that range in size from 9,440 to 14,140 square feet of land area. The comparables are improved with two-story dwellings of wood siding exterior construction ranging in size from 2,115 to 2,800 square feet of living area. The dwellings were built from 1988 to 1991 with comparable #1 having a reported effective age of 1995. The comparables each have a basement, one of which has finished area. Each comparable has central air conditioning and a garage ranging in size from 420 to 484 square feet of building area. Three comparables each have a fireplace. The comparables sold from January to December 2020 for prices ranging from \$412,500 to \$535,000 or from \$181.54 to \$204.50 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains nine suggested comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparables #3 and #4 due to their sale dates occurring in 2019, less proximate in time to the assessment date at issue than the other comparable sales in the record and thus, are less likely to be reflective of the subject's market value as of January 1, 2021. The Board has given less weight to board of review comparables #1, #4 and #5 due to their less similar dwelling sizes when compared to the subject.

¹ According to the Multiple Listing Service (MLS) data sheets provided by the appellant, comparables #1, #2 and #3 each have basement finished area, which was not refuted by the board of review.

The Board finds the best evidence of market value to be the parties' remaining comparables, which sold proximate in time to the assessment date at issue. The Board finds these four comparables are relatively similar to the subject in location and similar, if not identical, to the subject in dwelling size, design, age and some features. However, two of the comparables lack basement finished area, a feature of the subject, suggesting upward adjustments would be required to make these comparables more equivalent to the subject. Nevertheless, these four comparables sold from May to December 2020 for prices ranging from \$460,000 to \$518,000 or from \$181.54 to \$204.50 per square foot of living area, including land. The subject's assessment reflects a market value of \$493,185 or \$194.70 per square foot of living area, including land, which falls within the range established by the best comparable sales in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds no reduction in the subject's estimated market value as reflected by its assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
