

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Ha  
DOCKET NO.: 21-01671.001-R-1  
PARCEL NO.: 15-29-403-030

The parties of record before the Property Tax Appeal Board are Michael Ha, the appellant(s), by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds No Change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$29,462  
**IMPR.:** \$114,866  
**TOTAL:** \$144,328

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of wood siding exterior construction with 2,340 square feet of living area. The dwelling was constructed in 1979 and is approximately 42 years old. Features of the home include an unfinished basement, central air conditioning, a fireplace and a garage with 440 square feet of building area. The property has a 7,200 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that have the same assessment neighborhood code as the subject and located within 0.67 of a mile from the subject property. The comparables are improved with 2-story dwellings of wood siding exterior construction ranging in size from 2,264 to 2,378 square feet of living area. The dwellings are 39 or 46 years old. Each comparable has an unfinished basement, central air conditioning and a garage with either 400 or 440 square feet of building area. The comparables have improvement assessments ranging from \$100,272 to \$105,200 or from \$43.85 to \$44.29 per square foot of living

area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$103,135 or \$44.07 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$144,328. The subject property has an improvement assessment of \$114,866 or \$49.09 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on eight equity comparables that have the same assessment neighborhood code as the subject and located within 0.47 of a mile from the subject property. The comparables are improved with 2-story dwellings of frame exterior construction that range in size from 2,216 to 2,340 square feet of living area. The dwellings were built from 1977 to 1984. Each comparable has a basement, two with finished area, central air conditioning, a fireplace and a garage ranging in size from 400 to 462 square feet of building area. The comparables have improvement assessments ranging from \$109,618 to \$115,996 or from \$49.10 to \$49.57 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted twelve suggested comparables for the Board's consideration. The Board gave less weight to the board of review comparables #5 and #7 due to their finished basement area, when compared to subject's unfinished basement and the other comparables in the record.

The Board finds the best evidence of assessment to be the parties' remaining comparables. These comparables are similar to the subject in location, dwelling size, design, age and features. These comparables have improvement assessments that range from \$100,272 to \$115,996 or from \$43.85 to \$49.57 per square foot of living area. The subject property has an improvement assessment of \$114,866 or \$49.09 per square foot of living area falls within the range established by the best comparables contained in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
