

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Hao Li
DOCKET NO.: 21-01717.001-R-1
PARCEL NO.: 15-21-212-037

The parties of record before the Property Tax Appeal Board are Hao Li, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds No Change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$36,339
IMPR.: \$81,659
TOTAL: \$117,998

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story condominium of wood siding exterior construction with 1,857 square feet of living area. The dwelling was constructed in 1996 and is approximately 25 years old. Features of the home include an unfinished basement, central air conditioning, a fireplace and a garage with 440 square feet of building area. The property is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four suggested equity comparables located within the same assessment neighborhood as the subject property and within 0.06 of a mile from the subject property. The comparables are improved with 2-story condominiums of wood siding exterior construction each containing 1,857 square feet of living area. The dwellings are 25 and 26 years old. Each comparable has a concrete slab foundations, central air conditioning and a garage with 440 square feet of building area. The comparables have improvement assessments of \$73,668 or \$39.67 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$73,722 or \$39.70 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$117,998. The subject property has an improvement assessment of \$81,659 or \$43.97 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted the subject's property record card and a grid analysis of five suggested equity comparables located within the same assessment neighborhood as the subject property and within 0.14 of a mile from the subject property. The comparables are improved with 2-story condominiums of frame exterior construction with either 1,838 or 1,857 square feet of living area. The dwellings were built in either 1995 or 1996. Each comparable has an unfinished basement, central air conditioning and a garage containing 440 square feet of building area. Four comparables each have a fireplace. The comparables have improvement assessments ranging from \$81,031 to \$82,009 or from \$44.09 to \$44.60 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their concrete slab foundation when compared to the subject's unfinished basement.

The Board finds the best evidence of assessment equity are the board of review comparables. These comparables are similar, if not identical to the subject in dwelling size and similar to the subject in location, design, age and some features. They have improvement assessments ranging from \$81,031 to \$82,009 or from \$44.09 to \$44.60 per square foot of living area. The subject's improvement assessment of \$81,659 or \$43.97 per square foot of living area falls within the range established by the best comparables in the record on an overall improvement assessment basis and below the range on a per square foot basis record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
