

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jewell Parilla
DOCKET NO.: 21-01930.001-R-1
PARCEL NO.: 16-09-112-007

The parties of record before the Property Tax Appeal Board are Jewell Parilla, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$74,955
IMPR.: \$74,525
TOTAL: \$149,480

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of brick exterior construction with 1,568 square feet of living area. The dwelling was constructed in 1956 and is approximately 65 years old. Features of the home include a lower level, a fireplace and a 620 square foot garage. The property has a 20,960 square foot site and is located in Lake Forest, West Deerfield Township, Lake County.

The appellant contends assessment inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables with the same assessment neighborhood code as the subject. The comparables are improved with one-story dwellings of brick exterior construction ranging in size from 1,510 to 1,890 square feet of living area. The homes are 58 or 61 years old. Comparables #1 and #2 are reported to have basements with finished area and comparables #3 and #4 are reported to have lower levels with finished area. Three comparables have central air conditioning. Each comparable has one or two fireplaces and a 484 to 576 square foot garage. The comparables

have improvement assessments that range from \$51,038 to \$75,071 or from \$27.02 to \$41.69 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$149,480. The subject has an improvement assessment of \$74,525 or \$47.53 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on five equity comparables with the same assessment neighborhood code as the subject. The comparables are improved with one-story dwellings of brick or brick and wood siding exterior construction ranging in size from 1,532 to 1,629 square feet of living area. The homes were built from 1959 to 1964. The comparables have lower levels, two of which have finished area. Four comparables each have central air conditioning and one or two fireplaces. Each comparable has a 280 to 625 square foot garage. These comparables have improvement assessments ranging from \$78,933 to \$92,278 or from \$51.46 to \$57.59 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments, for the assessment year in question, of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to appellant's comparables #1, #2 and #4 which are less similar to the subject dwelling in size.

The Board finds the best evidence of assessment equity to be the appellant's comparable #3 and the board of review comparables. These comparables are more similar to the subject in location, age, dwelling size and features. The comparables have improvement assessments that range from \$62,954 to \$92,278 or from \$41.69 to \$57.59 per square foot of living area. The subject's improvement assessment of \$74,525 or \$47.53 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
