

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joy McGreevy
DOCKET NO.: 21-02149.001-R-1
PARCEL NO.: 16-09-118-006

The parties of record before the Property Tax Appeal Board are Joy McGreevy, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.¹

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$102,801
IMPR.: \$164,242
TOTAL: \$267,043

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of wood siding exterior construction with 3,350 square feet of living area. The dwelling was built in 1968 and is 53 years old with a reported effective year built of 1978. Features of the home include an unfinished basement, central air conditioning, two fireplaces, and a 576 square foot garage. The property has an approximately 20,060 square foot site and is located in Lake Forest, West Deerfield Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on five comparable sales located within .42 miles from the

subject property. The comparables have sites ranging in size from 12,410 to 14,196 square feet of land area and are improved with 1.8-story or 2-story dwellings of brick or wood siding exterior construction ranging in size from 2,664 to 3,784 square feet of living area. The dwellings are 45 to 55 years old. The comparables have basements with three having finished area. Each comparable has central air conditioning, one or two fireplaces and a garage that ranges in size from 506 to 576 square feet of building area. The comparables sold from May 2019 to October 2020 for prices ranging from \$507,000 to \$709,000 or from \$168.55 to \$214.35 per square foot of living area, including land. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$267,043. The subject's assessment reflects a market value of \$801,209 or \$239.17 per square foot of living area, land included, when using the statutory level of assessment of 33.33%. In support of its contention of the correct assessment, the board of review submitted information on five comparable sales located within .95 miles from the subject property. The comparables have sites ranging in size from 12,750 to 69,700 square feet of land area. The comparables are improved with 1.75-story or 2-story dwellings of brick or brick and wood siding exterior construction ranging in size from 3,022 to 3,520 square feet of living area. The dwellings were built from 1965 to 1984 with comparable #4 having an effective year built of 1981. The comparables have basements, three of which have a recreation room. Each comparable has central air conditioning, four comparable have two or three fireplaces and each comparable has a garage that ranges in size from 460 to 1,116 square feet of building area. Comparable #2 has an inground swimming pool and hot tub. The properties sold from May 2020 to September 2020 for prices ranging from \$750,000 to \$842,500 or from \$239.35 to \$262.41 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of ten suggested comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparables #1, #2 and #3 which sold over 12 months prior to the January 1, 2021 assessment date and were less likely to be indicative of the subject's market value and to appellant's comparable #4 which has a 20% smaller dwelling size when compared to the subject. The Board gives less weight to board of review comparables #2, #3 and #5 which have significantly larger sites, larger garages and/or newer year built when compared to the subject. In addition, board of review comparable #2 has an inground swimming pool which is not a feature of the subject.

The Board finds the best evidence of market value to be appellant's comparable #5 along with board of review comparables #1 and 4 which sold proximate in time to the assessment date at

issue and they are similar to the subject in design, dwelling size, age and some features. However, two comparables have finished basement area when compared to the subject's unfinished basement. Nevertheless, these best comparables sold from July to October 2020 for prices ranging from \$690,000 to \$835,000 or from \$214.35 to \$262.41 per square foot of living area, including land. The subject's assessment reflects a market value of \$801,209 or \$239.17 per square foot of living area, including land, which is within the range established by the best comparable sales in the record. Therefore, after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's estimated market value as reflected by its assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
