

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Oana Honey
DOCKET NO.: 21-02524.001-R-1
PARCEL NO.: 15-23-209-008

The parties of record before the Property Tax Appeal Board are Oana Honey, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$66,677
IMPR.: \$263,114
TOTAL: \$329,791

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of brick and stone exterior construction with 4,640 square feet of living area. The dwelling was constructed in 2007 and is approximately 14 years old. Features of the home include a basement with finished area, central air conditioning, three fireplaces, and a 943 square foot garage. The property has a 21,780 square foot site and is located in Lincolnshire, Vernon Township, Lake County.

The appellant contends assessment inequity with regard to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with 2-story homes of brick and stone, dryvit and stone, or wood siding and stone exterior construction ranging in size from 4,478 to 5,066 square feet of living area. The dwellings range in age from 5 to 14 years old. Each home has a basement, two of

which have finished area, central air conditioning, one or two fireplaces, and a garage ranging in size from 682 to 868 square feet of building area. The comparables have improvement assessments ranging from \$239,409 to \$267,848 or from \$52.45 to \$54.44 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$329,791. The subject property has an improvement assessment of \$263,114 or \$56.71 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on six equity comparables located within the same assessment neighborhood code as the subject.¹ The comparables are improved with 2-story homes of brick or brick and frame exterior construction ranging in size from 3,616 to 3,993 square feet of living area. The dwellings were built from 1993 to 2017. Each home has a basement, four of which have finished area, central air conditioning, one to three fireplaces, and a garage ranging in size from 571 to 940 square feet of building area. Comparable #3 has a shed. The comparables have improvement assessments ranging from \$192,007 to \$228,041 or from \$52.46 to \$58.43 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's improvement assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of ten equity comparables for the Board's consideration. The Board gives less weight to the board of review's comparables, which are less similar to the subject in dwelling size than other comparables in this record.

The Board finds the best evidence of assessment equity to be the appellant's comparables, which are more similar to the subject in dwelling size, age, location, and some features. These comparables have improvement assessments that range from \$239,409 to \$267,848 or from \$52.45 to \$54.44 per square foot of living area. The subject's improvement assessment of \$263,114 or \$56.71 per square foot of living area falls within the range established by the best comparables in terms of total improvement assessment but slightly above the range on a per square foot basis. Based on this record and after considering appropriate adjustments to the best

comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
