

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Latchezara Ivanov  
DOCKET NO.: 21-02941.001-R-1  
PARCEL NO.: 14-19-103-034

The parties of record before the Property Tax Appeal Board are Latchezara Ivanov, the appellant, by attorney Arnold G. Siegel, of Siegel & Callahan, P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$27,230  
**IMPR.:** \$140,540  
**TOTAL:** \$167,770

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of vinyl exterior construction with 2,951 square feet of living area. The dwelling was constructed in 2002 and is approximately 19 years old. Features of the home include a walk-out basement with finished area, central air conditioning, one fireplace and a 651 square foot 3-car garage. The property has a 10,890 square foot site and is located in Lake Zurich, Ela Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$400,000 as of January 1, 2019. The appraisal was prepared by Gregory B. Nold, a certified general real estate appraiser. The intended use of the appraisal report was to assist the appellant with an ad valorem tax assessment and no other purpose.

In estimating the market value of the subject property, the appraiser developed the sales comparison approach to value using six comparable sales located within 0.51 of a mile from the subject property. The comparables have sites that range in size from 11,541 to 23,610 square feet of land area and are improved with two-story dwellings of frame or masonry exterior construction that range in size from 2,546 to 3,916 square feet of living area. The homes range in age from 13 to 39 years old. Each comparable has a basement, three with finished area, central air conditioning, one fireplace and either a 2-car or a 3-car garage. The appraiser indicated the comparables had "Kitchen/Bath Finishes" ranging from "Average/Average" to "Good/Good." The subject's kitchen/bath finishes were characterized by the appraiser as being "Good/Average." The comparables sold from March 2016 to July 2018 for prices ranging from \$325,000 to \$478,102 or from \$116.07 to \$152.94 per square foot of living area, land included.

The appraiser adjusted the comparables for differences with the subject in site size, condition, dwelling size, basement features, vehicle capacity and kitchen/bath finishes and arrived at adjusted sale prices of the comparable properties ranging from \$373,600 to \$403,802 and an opinion of market value for the subject of \$400,000. Based on this evidence, the appellant requested the subject's assessment be reduced to \$133,320.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$167,770. The subject's assessment reflects a market value of \$504,571 or \$170.98 per square foot of living area, land included, when using the 2021 three-year average median level of assessment for Lake County of 33.25% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on four comparables located within 0.62 of a mile from the subject property. The comparables have sites that range in size from 11,050 to 23,340 square feet of land area and are improved with 1.5-story or 2-story dwellings of wood siding exterior construction that range in size from 1,789 to 3,580 square feet of living area. The homes were built from 1968 to 2008. Each comparable has a basement, central air conditioning, one or two fireplaces and a garage ranging in size from 300 to 908 square feet of building area. The comparables sold from May 2020 to July 2021 for prices ranging from \$510,000 to \$630,000 or from \$167.60 to \$322.58 per square foot of living area, land included.

In rebuttal, the appellant asserted that the market value of the subject property had been clearly established in the previously submitted appraisal report. In contrast, the appellant contends the board of review's unadjusted raw sales are unpersuasive.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales, or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The appellant submitted an appraisal and the board of review submitted four comparable sales for the Board's consideration. The Board finds the appraisal report previously submitted by the appellant has an effective date of January 1, 2019 and that the comparable sales in the report sold from 29 months to nearly five years prior to the January 1, 2021 assessment date at issue. Therefore, less weight is given to the opinion of value for the subject as presented in the appraisal.

The Board finds the best evidence of market value to be board of review comparables #1 and #2 which sold proximate to the assessment date at issue and are more similar to the subject in age, design, dwelling size and other features. These two best comparables sold in May 2020 and July 2021 for prices of \$600,000 and \$630,000 or \$167.60 and \$193.73 per square foot of living area, land included. The subject's assessment reflects a market value of \$504,571 or \$170.98 per square foot of living area, including land, which falls below the two best comparables in the record on an overall value basis and is bracketed by the two best comparables on a per square foot basis. The Board gives less weight to board of review comparables #3 and #4 which differ from the subject in age and dwelling size. After considering adjustments to the best comparables for differences from the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
