

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Roman Beluch  
DOCKET NO.: 21-02974.001-R-1  
PARCEL NO.: 16-15-207-037

The parties of record before the Property Tax Appeal Board are Roman Beluch, the appellant, by attorney Abby L. Strauss, of Schiller Law P.C. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$29,041  
**IMPR.:** \$92,737  
**TOTAL:** \$121,778

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 1-story dwelling of aluminum siding exterior construction with 2,463 square feet of living area. The dwelling was constructed in 1930 and has an effective age of 1965. Features of the home include a basement with finished area, central air conditioning, and a garage containing 483 square feet of building area. The property has a 6,500 square foot site and is located in Highwood, Moraine Township, Lake County.

The appellant contends assessment inequity with regard to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables located within .26 or a mile of the subject and within the subject's assessment neighborhood. The comparables consist of 1-story or 2-story dwellings of wood siding or brick exterior construction ranging in size from 2,480 to 2,816 square feet of living area. The homes were built from 1922 to 1969, with comparable #4 having an effective age of 1969. Each

dwelling has a basement with three having finished area, four comparables have central air conditioning, one comparable has a fireplace, and three comparables each have a garage ranging in size from 324 to 720 square feet of building area. The comparables have improvement assessments ranging from \$86,353 to \$96,572 or from \$31.82 to \$34.84 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$82,879 or \$33.65 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$121,778. The subject property has an improvement assessment of \$92,737 or \$37.65 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within .46 of a mile of the subject and within the subject's assessment neighborhood. Comparable #1 is the same property as appellant comparable #4. The comparables consist of 1-story, 1.5-story, or 2-story dwellings of wood siding, brick, wood siding and brick, or stucco and stone exterior construction ranging in size from 2,159 to 2,544 square feet of living area. The homes were built from 1920 to 1977, with the shared comparable having an effective age of 1969. Each dwelling has a basement with one having finished area, three comparables have central air conditioning, two comparables each have a fireplace, and two comparables each have garage containing either 324 or 550 square feet of building area. The comparables have improvement assessments ranging from \$83,335 to \$87,203 or from \$33.94 to \$40.08 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill. Admin. Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill. Admin. Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight equity comparables to support their respective positions before the Property Tax Appeal Board, with one comparable being common to the parties. The Board finds the parties' comparables are not truly similar to the subject due to differences in age/effective age, design, and/or features. Nevertheless, the Board has given reduced weight to the appellant's comparables #2 and #5, as well as board of review comparables #3 and #4, which lack a garage and/or central air conditioning, features of the subject.

The Board finds the best evidence of assessment equity to be appellant's comparables #1, #3, and #4 along with board of review comparables #1 and #2, including the common comparable, which have varying degrees of similarity to the subject. These comparables have improvement assessments that range from \$86,353 to \$88,719 or from \$31.82 to \$38.57 per square foot of living area. The subject's improvement assessment of \$92,737 or \$37.65 per square foot of

living area falls within the range established by the best comparables in this record on a per-square-foot basis. Although the subject's improvement assessment is above the range overall, the Board finds this logical given the subject's larger basement and finished basement area than the best comparables. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
