

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Karen Thomson
DOCKET NO.: 21-03223.001-R-1
PARCEL NO.: 16-29-102-003

The parties of record before the Property Tax Appeal Board are Karen Thomson, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$59,524
IMPR.: \$102,007
TOTAL: \$161,531

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of wood siding exterior construction with 2,108 square feet of living area. The dwelling was built in 1950 and is approximately 71 years old. Features of the home include an unfinished basement, one fireplace, and a garage with 441 square feet of building area. The property has an approximately 15,002 square foot site and is located in Deerfield, West Deerfield Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables with the same assessment neighborhood code as the subject property and located within 0.44 of a mile from the subject. The comparables are reported to be improved with 1.8-story dwellings of brick exterior construction ranging in size from 1,820 to 2,587 square feet of living area. The dwellings range in age from 91 to 97 years old. Each comparable has an

unfinished basement, one or two fireplaces, and a garage ranging in size from 360 to 504 square feet of building area. Three comparables each have central air conditioning. The improvement assessments on these properties range from \$82,006 to \$107,794 or from \$41.67 to \$45.06 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$92,367 or \$43.82 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$161,531. The subject property has an improvement assessment of \$102,007 or \$48.39 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on five equity comparables with the same assessment neighborhood code as the subject property and located within 0.42 miles from the subject. The comparables are improved with 2-story dwellings of wood siding or brick and wood siding exterior construction ranging in size from 1,936 to 2,321 square feet of living area. The dwellings were built from 1939 to 1960 with comparable #3 having an effective year built of 1946. Each comparable has an unfinished basement, one or two fireplaces, and a garage ranging in size from 240 to 525 square feet of building area. Four comparables each have central air conditioning. The improvement assessments on these properties range from \$87,440 to \$122,077 or from \$44.30 to \$56.26 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on nine comparables to support their respective positions. The Board gives less weight to the appellant's comparables which differ from the subject in dwelling size and/or age.

The Board finds the best evidence of assessment equity to be the board of review comparables which are similar to the subject in location, design, age, dwelling size, and most features. These comparables have improvement assessments that range from \$87,440 to \$122,077 or from \$44.30 to \$56.26 per square foot of living area. The subject's improvement assessment of \$102,007 or \$48.39 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
