

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Fereydoon Khodadad
DOCKET NO.: 21-03421.001-R-1
PARCEL NO.: 15-21-205-010

The parties of record before the Property Tax Appeal Board are Fereydoon Khodadad, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$32,286
IMPR.: \$180,211
TOTAL: \$212,497

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of wood siding exterior construction with 3,757 square feet of living area. The dwelling was constructed in 1998 and is approximately 23 years old. Features of the home include a basement with finished area, central air conditioning, a fireplace, and a garage containing 651 square feet of building area. The property has a 12,197 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located within .23 of a mile of the subject and within the subject's assessment neighborhood. The comparables consist of two-story dwellings of wood siding exterior construction ranging in size from 3,757 to 3,871 square feet of living area. Each dwelling is 24 years old, has central air conditioning, one or two fireplaces, a basement with finished area, and a garage ranging in size from 691 to 704 square

feet of building area. The comparables have improvement assessments ranging from \$155,234 to \$173,116 or from \$41.32 to \$45.85 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$162,302 or \$43.20 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$212,497. The subject property has an improvement assessment of \$180,211 or \$47.97 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on five equity comparables located within .29 of a mile of the subject and within the subject's assessment neighborhood. The comparables consist of two-story dwellings of wood siding exterior construction ranging in size from 3,414 to 3,757 square feet of living area. The homes were built from 1996 to 1998. Each dwelling has central air conditioning, a basement with four having finished area, and a garage ranging in size from 651 to 836 square feet of building area. Four comparables each have a fireplace. The comparables have improvement assessments ranging from \$166,816 to \$182,123 or from \$48.23 to \$49.84 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The Board has given reduced weight to the board of review's comparable #5 which lacks finished basement area.

The Board finds the best evidence of assessment equity to be the appellant's comparables and board of review comparables #1 through #4, which are similar to the subject in age, dwelling size, location, and features. These comparables have improvement assessments that range from \$155,234 to \$182,123 or from \$41.32 to \$49.84 per square foot of living area. The subject's improvement assessment of \$180,211 or \$47.97 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
