

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Orlov  
DOCKET NO.: 21-03490.001-R-1  
PARCEL NO.: 15-33-108-013

The parties of record before the Property Tax Appeal Board are Richard Orlov, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Northbrook; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$25,848  
**IMPR.:** \$115,227  
**TOTAL:** \$141,075

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of wood siding exterior construction with 2,460 square feet of living area. The dwelling was constructed in 1979 and is approximately 42 years old. Features of the home include a partially finished basement, central air conditioning, and a 420 square foot garage. The property has an approximately 7,980 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located in the same assessment neighborhood code as the subject property and within 0.23 of a mile from the subject. The comparables are improved with 2-story dwellings of wood siding exterior construction ranging in size from 2,278 to 2,485 square feet of living area. The dwellings are each 36 years old. Each comparable has an unfinished basement,

central air conditioning, and a garage with either 400 or 460 square feet of building area. Three comparables each have one fireplace. The comparables have improvement assessments ranging from \$98,693 to \$108,554 or from \$43.13 to \$43.95 per square foot of living area. Based on this evidence the appellant requested a reduction in the subject's improvement assessment to \$106,825 or \$43.42 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$141,075. The subject property has an improvement assessment of \$115,227 or \$46.84 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on five equity comparables that are located in the same assessment neighborhood code as the subject property and within 0.37 of a mile from the subject. The comparables are improved with 2-story dwellings of wood siding exterior construction with either 2,444 or 2,470 square feet of living area. The dwellings were built from 1979 to 1986 and thus would range in age from approximately 35 to 42 years old. Each comparable has a partially finished basement, central air conditioning, and a 460 square foot garage. Two comparables each have one fireplace. The comparables have improvement assessments ranging from \$127,232 to \$130,247 or from \$51.51 to \$52.73 per square foot of living area.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which lack basement finish, a feature of the subject.

The Board finds the best evidence of assessment equity are the board of review comparables which are overall more similar to the subject in location, style, age, dwelling size, and features. These comparables have improvement assessments ranging from \$127,232 to \$130,247 or from \$51.51 to \$52.73 per square foot of living area. The subject's improvement assessment of \$115,227 or \$46.84 per square foot of living area falls below the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
