

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Timothy and Lyn Hannahs
DOCKET NO.: 21-03535.001-R-1
PARCEL NO.: 15-28-101-004

The parties of record before the Property Tax Appeal Board are Timothy and Lyn Hannahs, the appellants, by attorney Robert Rosenfeld, of Robert H. Rosenfeld & Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$32,890
IMPR.: \$129,266
TOTAL: \$162,156

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of wood siding exterior construction with 2,279 square feet of living area. The dwelling was constructed in 1986 and is approximately 35 years old. Features of the home include a basement with finished area, central air conditioning, a fireplace, and a 440 square foot garage. The property has an 8,799 square foot site and is located in Buffalo Grove, Vernon Township, Lake County.

The appellants contend assessment inequity regarding the improvement assessment as the basis of the appeal. In support of this argument the appellants submitted information on four equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with 2-story homes of wood siding exterior construction ranging in size from 2,096 to 2,599 square feet of living area. The dwellings range in age from 32 to 35 years old. Each home has a basement, three of which have finished area, central air

conditioning, and a 440 square foot garage. Three homes have one or two fireplaces. The comparables have improvement assessments ranging from \$104,654 to \$130,002 or from \$49.85 to \$50.02 per square foot of living area. Based on this evidence the appellants requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$162,156. The subject property has an improvement assessment of \$129,266 or \$56.72 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on five equity comparables located within the same assessment neighborhood code as the subject. The comparables are improved with 2-story homes of wood siding exterior construction with 2,279 square feet of living area. The dwellings were built in 1988 or 1989. Each home has a basement with finished area, central air conditioning, one or two fireplaces, and a 440 square foot garage. The comparables have improvement assessments ranging from \$125,473 to \$131,838 or from \$55.06 to \$57.85 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of nine equity comparables for the Board's consideration. The Board gives less weight to the appellants' comparable #4, due to substantial differences from the subject in dwelling size and basement finish.

The Board finds the best evidence of assessment equity to be the appellants' comparables #1, #2, and #3 and the board of review's comparables, which are identical or similar to the subject in dwelling size and are similar to the subject in age, location, and features. These comparables have improvement assessments that range from \$104,654 to \$131,838 or from \$49.85 to \$57.85 per square foot of living area. The subject's improvement assessment of \$129,266 or \$56.72 per square foot of living area falls within the range established by the best comparables in this record. Based on this record and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
