

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jack Gaughan
DOCKET NO.: 21-03910.001-R-1
PARCEL NO.: 15-30-102-017

The parties of record before the Property Tax Appeal Board are Jack Gaughan, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$51,710
IMPR.: \$164,935
TOTAL: \$216,645

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of brick exterior construction with 3,650 square feet of living area.¹ The dwelling was constructed in 1979. Features of the home include an unfinished basement, central air conditioning, two fireplaces, a garage containing 814 square feet of building area, and an inground swimming pool. The property has a 62,291 square foot site and is located in Long Grove, Vernon Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on three comparable sales located within .92 of a mile of the subject, one of which is in the subject's assessment neighborhood. The comparables consist of 2-story dwellings of brick or frame exterior construction ranging in size from 3,212 to 4,426

¹ The parties differ as to the subject's dwelling size. The Board finds the property record card submitted by the board of review, which was not refuted by the appellant, to be the best evidence of dwelling size in the record.

square feet of living area. The homes were built from 1979 to 1989. Each dwelling has central air conditioning, one to three fireplaces, a basement with finished area, and a garage ranging in size from 744 to 864 square feet of building area. The parcels range in size from 44,782 to 84,942 square feet of land area. The comparables sold from June 2019 to April 2020 for prices ranging from \$595,000 to \$641,000 or from \$141.89 to \$199.56 per square foot of living area, including land. Based on this evidence, the appellant requested a reduced assessment of \$174,507, for an estimated market value of \$523,573 or \$143.44 per square foot of living area, including land, when applying the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$216,645. The subject's assessment reflects a market value of \$651,564 or \$178.51 per square foot of living area, land included, when using the 2021 three-year average median level of assessment for Lake County of 33.25% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on three comparable sales located within .37 of a mile of the subject and within the subject's assessment neighborhood. Comparable #3 is the same property as appellant comparable #3. The comparables consist of 2-story or part 1-story and part 2-story dwellings of brick or wood siding and brick exterior construction ranging in size from 3,212 to 4,066 square feet of living area.² The dwellings were built from 1979 to 1989. Each dwelling has central air conditioning, one or two fireplaces, a basement with finished area, and a garage ranging in size from 690 to 864 square feet of building area. The parcels range in size from 56,190 to 157,020 square feet of land area. The comparables sold from April 2020 to September 2021 for prices ranging from \$640,000 to \$710,000 or from \$174.62 to \$199.56 per square foot of living area, including land. The board of review also submitted a memorandum arguing that appellant comparables #1 and #2 are located in different developments from the subject and are of different construction quality. The board of review also argued that appellant comparables #1 and #3, the parties' common comparable, differ from the subject in dwelling size. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales, or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of five comparable sales to support their respective positions before the Property Tax Appeal Board, with one comparable being common to the parties. The Board

² Although the board of review describes comparables #1 and #3 as 1-story dwellings, the grid states that these comparables have 1,489 and 872 square feet of ground floor living area and 3,532 and 3,212 square feet of above ground living area, indicating that these comparables are part 2-story dwellings.

gives less weight to the appellant's comparables #1 and #2 due to their less proximate sale dates for valuation as of January 1, 2021.

The Board finds the best evidence of market value to be the parties' common comparable and board of review comparable sales #1 and #2, which are similar to the subject in age, dwelling size, design, and location. These most similar comparables sold from April 2020 to September 2021 for prices ranging from \$640,000 to \$710,000 or from \$174.62 to \$199.56 per square foot of living area, including land. The subject's assessment reflects a market value of \$651,564 or \$178.51 per square foot of living area, including land, which is within the range established by the best comparable sales in this record. Based on this evidence and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
