

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Cook
DOCKET NO.: 21-04322.001-R-1
PARCEL NO.: 10-35-303-006

The parties of record before the Property Tax Appeal Board are Michael Cook, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$39,184
IMPR.: \$226,869
TOTAL: \$266,053

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of brick exterior construction with 5,582 square feet of living area.¹ The dwelling was constructed in 2006. Features of the home include a walkout basement, central air conditioning, three fireplaces, a 1,203 square foot garage, and an inground swimming pool. The property has a 85,962 square foot site and is located in Mundelein, Fremont Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on three comparable sales located within the same assessment neighborhood as the subject and within 0.62 of a mile from the subject. The parcels range in size

¹ The parties differ regarding the subject's dwelling size. The Board finds the best evidence of dwelling size is found in the subject's property record card presented by the board of review which contains a sketch with measurements and was not refuted by the appellant in written rebuttal.

from 57,787 to 92,349 square feet of land area and are improved with 2-story homes, one of which is of brick and wood siding exterior construction,² ranging in size from 4,860 to 6,049 square feet of living area. The dwellings were built from 1993 to 2002. Each home has a basement, one of which has finished area, central air conditioning, one or six fireplaces, and a garage ranging in size from 1,018 to 1,286 square feet of building area. The comparables sold from March 2019 to July 2020 for prices ranging from \$640,000 to \$815,000 or from \$131.69 to \$140.85 per square foot of living area, including land. Based on this evidence the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$266,053. The subject's assessment reflects a market value of \$800,159 or \$143.35 per square foot of living area, land included, when using the 2021 three year average median level of assessment for Lake County of 33.25% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on five comparable sales located from 0.33 of a mile to 1.28 miles from the subject, three of which are within the same assessment neighborhood code as the subject. Comparable #3 is the same property as the appellant's comparable #2. The parcels range in size from 55,670 to 93,250 square feet of land area and are improved with 2-story homes of brick or brick and wood siding exterior construction ranging in size from 4,446 to 6,592 square feet of living area. The dwellings were built from 1990 to 1999 with the newest home having an effective age of 2001. Each home has a basement, four of which have finished area and one of which is a walkout. Each comparable also features central air conditioning, three to six fireplaces, and a garage ranging in size from 1,051 to 1,477 square feet of building area. Comparable #4 has an inground swimming pool. The comparables sold from June 2020 to August 2021 for prices ranging from \$705,000 to \$889,000 or from \$134.25 to \$162.39 per square foot of living area, including land. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of seven comparable sales, with one common sale, for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #3, which sold less proximate in time to the assessment date than the other comparables in this record. The Board gives less weight to the board of review's comparables #2, #4, and #5, due to substantial differences from the subject in dwelling size and/or are located more than one mile from the subject.

² Additional details regarding comparable #2, which is common to both parties, are found in a listing sheet presented by the appellant and in the board of review's evidence.

The Board finds the best evidence of market value to be the appellant's comparable #2/board of review's comparable #3 and the board of review's comparable #1, which sold more proximate in time to the assessment date and are relatively similar to the subject in dwelling size and location but have varying degrees of similarity to the subject in age, lot size, and features. These two most similar comparables sold for prices of \$815,000 and \$889,000 or for \$134.73 and \$162.05 per square foot of living area, including land, respectively. The subject's assessment reflects a market value of \$800,159 or \$143.35 per square foot of living area, including land, which is below the best comparable sales in terms of total market value and bracketed by the best comparables on a price per square foot basis. Based on this evidence and after considering appropriate adjustments to the best comparables for differences from the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
