

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George Young  
DOCKET NO.: 21-04445.001-R-1  
PARCEL NO.: 14-05-303-014

The parties of record before the Property Tax Appeal Board are George Young, the appellant, by attorney Ronald Kingsley of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$31,140  
**IMPR.:** \$128,443  
**TOTAL:** \$159,583

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of wood siding exterior construction with 2,945 square feet of living area. The dwelling was constructed in 1990 and has a reported effective age of 1992. Features of the home include a basement, central air conditioning, a fireplace and a 690 square foot garage. The property has an approximately 42,627 square foot site and is located in Hawthorn Woods, Ela Township, Lake County.<sup>1</sup>

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on three comparable sales that have the same assessment neighborhood code as the subject and are located within .80 of a mile from the subject property.

---

<sup>1</sup> The parties differ as to the size of the subject site. The Board finds the best evidence of size is found in the subject's property record card provided by the board of review.

The comparables have sites that range in size from 40,575 to 41,526 square feet of land area. The comparables are improved with two-story dwellings of frame exterior construction ranging in size from 2,808 to 3,209 square feet of living area. The dwellings were built from 1985 to 1989 with comparable #1, the oldest comparable, having a reported effective age of 1987. The appellant reported that each comparable has a basement, central air conditioning, a fireplace and a garage ranging in size from 704 to 968 square feet of building area. The comparables sold from December 2020 to April 2021 for prices ranging from \$432,450 to \$495,000 or from \$148.48 to \$154.25 per square foot of living area, including land. The appellant also submitted the listing sheet associated with the sale of comparable #3 disclosing the dwelling was rehabbed in 2013 and it has a finished basement. Based on this evidence, the appellant requested the subject's assessment be reduced to \$149,198, which would reflect a market value of \$447,639 or \$152.00 per square foot of living area, including land, when using the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$159,583. The subject's assessment reflects a market value of \$479,949 or \$162.97 per square foot of living area, land included, when using the 2021 three-year average median level of assessment for Lake County of 33.25% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on five comparable sales that are located within .32 of a mile from the subject property and three comparables have the same assessment neighborhood code as the subject. The comparables have sites that range in size from 37,640 to 66,190 square feet of land area. The comparables are improved with two-story dwellings of wood siding or brick and wood siding exterior construction ranging in size from 2,691 to 3,513 square feet of living area. The dwellings were built from 1990 to 1998. The comparables each have a basement, one of which is a walk-out. Each comparable has central air conditioning, one or two fireplaces and a garage ranging in size from 630 to 816 square feet of building area. The comparables sold from March 2020 to March 2021 for prices ranging from \$420,000 to \$620,000 or from \$148.02 to \$220.25 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight suggested comparable sales for the Board's consideration. The Board has given less weight to the appellant's comparable #3 which differs from the subject in basement finished area. The Board has given reduced weight to board of review comparables #1 and #4 due to their larger dwelling sizes, when compared to the subject. The Board has also given reduced weight to board of review comparable #5, which appears to be an outlier due to its

considerably higher sale price of \$620,000 or \$220.25 per square foot of living area, including land, when compared to the other sales in the record.

The Board finds the best evidence of market value to be the parties' remaining comparables, which are similar to the subject in location, dwelling size, design, age and some features. These four comparables sold from August 2020 to April 2021 for prices ranging from \$420,000 to \$496,500 or from \$148.48 to \$184.50 per square foot of living area, including land. The subject's assessment reflects a market value of \$479,949 or \$162.97 per square foot of living area, including land, which falls within the range established by the best comparable sales in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
