

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Larry Metnick
DOCKET NO.: 21-04723.001-R-1
PARCEL NO.: 16-22-301-016

The parties of record before the Property Tax Appeal Board are Larry Metnick, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$47,849
IMPR.: \$102,136
TOTAL: \$149,985

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick exterior construction with 2,389 square feet of living area. The dwelling was constructed in 1978. Features of the home include an unfinished basement, central air conditioning, a fireplace, and a garage containing 528 square feet of building area. The property has an approximately 10,000 square foot site and is located in Highland Park, Moraine Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on four comparable sales located within .68 of a mile of the subject and within the subject's assessment neighborhood. The comparables consist of two-story

or split-level¹ dwellings ranging in size from 2,160 to 2,595 square feet of living area. The homes were built from 1950 to 1977, with comparables #3 and #4 having effective ages of 1975 and 1974, respectively. Each dwelling has central air conditioning, a basement with one having finished area,² and a garage ranging in size from 308 to 528 square feet of building area. Three comparables each have a fireplace and comparable #3 has an additional 528 square foot detached garage. The parcels range in size from 7,301 to 10,951 square feet of land area. The comparables sold from February 2020 to February 2021 for prices ranging from \$367,500 to \$535,000 or from \$153.83 to \$222.22 per square foot of living area, including land. Based on this evidence, the appellant requested a reduced assessment of \$142,529, for an estimated market value of \$427,630 or \$179.00 per square foot of living area, including land, when applying the statutory level of assessment of 33.33%.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$149,985. The subject's assessment reflects a market value of \$451,083 or \$188.82 per square foot of living area, land included, when using the 2021 three-year average median level of assessment for Lake County of 33.25% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on five comparable sales located within .73 of a mile of the subject and within the subject's assessment neighborhood. Comparable #2 is the same property as appellant comparable #3. The comparables consist of two-story or split-level dwellings of wood siding or brick and wood siding exterior construction ranging in size from 2,382 to 2,712 square feet of living area. The dwellings were built from 1948 to 2006, with comparables #2 through #4 having effective ages ranging from 1975 to 1994. Each dwelling has central air conditioning and a garage ranging in size from 400 to 506 square feet of building area. Four comparables each have a fireplace, four comparables have finished basements, and one comparable has a finished lower level. As discussed above, the common comparable has an additional 528 square foot detached garage. The parcels range in size from 7,300 to 9,330 square feet of land area. The comparables sold from March 2020 to April 2021 for prices ranging from \$535,000 to \$750,000 or from \$213.66 to \$280.09 per square foot of living area, including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales, or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

¹ Appellant's comparable #3 is a shared comparable, and although the appellant describes the comparable as a two-story dwelling, the board of review's grid reports that the property has a lower level, indicating that it is a split-level design.

² The board of review's grid reports that the shared comparable has a 465 square foot recreation room.

The parties submitted a total of eight comparable sales to support their respective positions before the Property Tax Appeal Board, with one comparable being common to the parties. The Board gives less weight to the board of review's comparables, including the shared comparable, due to differences in age/effective age, design, basement finish, and/or additional garage when compared to the subject.

The Board finds the best evidence of market value to be the appellant's comparable sales #1, #2, and #4, which are similar to the subject in age/effective age, location, design, dwelling size, and features. These most similar comparables sold for prices ranging from \$367,500 to \$480,000 or from \$153.83 to \$222.22 per square foot of living area, including land. The subject's assessment reflects a market value of \$451,083 or \$188.82 per square foot of living area, including land, which is within the range established by the best comparable sales in this record. Based on this evidence and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
