

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nancy Soren  
DOCKET NO.: 21-05073.001-R-1  
PARCEL NO.: 16-32-319-016

The parties of record before the Property Tax Appeal Board are Nancy Soren, the appellant, by attorney Ronald Kingsley of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$56,627  
**IMPR.:** \$90,187  
**TOTAL:** \$146,814

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of wood siding exterior construction with 1,924 square feet of living area.<sup>1</sup> The dwelling was constructed in 1961. Features of the home include a concrete slab foundation, central air conditioning, a fireplace and a 252 square foot garage. The property has an 10,350 square foot site and is located in Deerfield, West Deerfield Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on twelve equity comparables that have the same assessment neighborhood code as the subject and are located

<sup>1</sup> The Board finds the best description of the subject property is found in the subject's property record card provided by the board of review disclosing the subject dwelling has wood siding exterior construction and a concrete slab foundation, which was not refuted by the appellant.

within .58 of a mile from the subject. The comparables are improved with two-story dwellings ranging in size from 1,838 to 2,015 square feet of living area. The dwellings were built from 1959 to 1964. The appellant reported that each comparable has a basement, eleven comparables have central air conditioning, eight comparables each have a fireplace and each comparable has a garage ranging in size from 240 to 506 square feet of building area. The comparables have improvement assessments ranging from \$63,695 to \$87,013 or from \$31.61 to \$45.21 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$78,114 or \$40.60 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$146,814. The subject property has an improvement assessment of \$90,187 or \$46.87 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on twelve equity comparables that have the same assessment neighborhood code as the subject and are located within .50 of a mile from the subject property. The comparables are improved with two-story dwellings of wood siding or brick and wood siding exterior construction ranging in size from 1,670 to 2,340 square feet of living area. The dwellings were built from 1958 to 1965. The board of review reported that seven comparables have concrete slab foundations and five comparables have basements, one of which has finished area. Each comparable has central air conditioning and a garage ranging in size from 240 to 552 square feet of building area. Six comparables have either one or two fireplaces. The comparables have improvement assessments ranging from \$78,847 to \$110,503 or from \$46.92 to \$47.59 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of 24 suggested equity comparables for the Board's consideration. The Board has given less weight to the appellant's comparables, as well as board of review comparables #1 and #6 through #11 as each dwelling has a basement foundation, when compared to the subject's concrete slab foundation and/or they have larger dwelling sizes when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #2, #3, #4, #5 and #12. These five comparables have concrete slab foundations, like the subject and are similar to the subject in location, dwelling size, design, age and some features. The comparables have improvement assessments that range from \$80,074 to \$91,226 or from \$46.95 to \$47.59 per square foot of living area. The subject's improvement assessment of \$90,187 or

\$46.87 per square foot of living area falls within the range established by the best comparables in the record in terms of overall improvement assessment and below the comparables on a square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
