

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Virgilio & Merigrace Orillo
DOCKET NO.: 21-07273.001-R-1
PARCEL NO.: 03-34-205-051

The parties of record before the Property Tax Appeal Board are Virgilio & Merigrace Orillo, the appellants, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the DuPage County Board of Review.¹

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$59,670
IMPR.: \$186,970
TOTAL: \$246,640

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of brick and frame exterior construction with 3,056 square feet of living area. The dwelling was constructed in 2004. Features of the home include a finished basement, central air conditioning, a fireplace and a 716 square foot garage. The property has an 8,030 square foot site and is located in Elmhurst, Addison Township, DuPage County.

The appellants contend overvaluation as the basis of the appeal. In support of this argument the appellants submitted information on eight comparable sales with the same assessment neighborhood code as the subject and located within .48 of a mile from the subject. These comparables are described as 2-story dwellings built from 2000 to 2014 and range in size from

2,626 to 3,715 square feet of living area. The comparables each have a basement, central air conditioning, one or two fireplaces and a garage ranging in size from 399 to 760 square feet of building area. The comparables sold from January 2020 to July 2021 for prices ranging from \$450,000 to \$791,000 or from \$159.99 to \$236.86 per square foot of living area, land included. Based on this evidence, the appellants requested a reduction in the subject's total assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$246,640. The subject's assessment reflects a market value of \$737,780 or \$241.42 per square foot of living area, land included, when using the 2021 three-year average median level of assessment for DuPage County of 33.43% as determined by the Illinois Department of Revenue.

In response to the appellants' evidence, the board of review submitted a comparable report on the appellants' comparable sales that reported sites ranging in size from 7,280 to 9,500 and comparable #5 has finished basement area which were not reported by the appellants.

In support of its contention of the correct assessment the board of review submitted information on five comparable sales with the same assessment neighborhood code as the subject that was prepared by the township assessor. Comparable #5 is a duplicate of appellants' comparable #6. The comparables are described as 2-story dwellings of brick or frame and brick exterior construction built from 1996 to 2005 on sites with 7,800 or 9,000 square feet of land area. The dwellings range in size from 2,276 to 3,556 square feet of living area. The comparables each have a basement, central air conditioning, one fireplace and a garage ranging in size from 440 to 733 square feet of building area. These comparables sold from March 2018 to September 2020 for prices ranging from \$510,000 to \$812,500 or from \$222.91 to \$244.78 per square foot of living area, land included. The board of review also provided a location map of both parties' comparable sales in relation to the subject property, property record cards and exterior photographs. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellants contended that board of review comparables #1, #2, #3, and #4 are not comparable due to their remote sale dates or smaller dwelling size when compared to the subject. In a rebuttal grid analysis, counsel suggested that appellants' comparables #1 through #4 and #8 are the best comparable sales in the record and contended the subject's assessment should be reduced.

Conclusion of Law

The appellants contend the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the parties submitted 12 comparables sales to support their respective positions which includes the common comparable. The Board gives less weight to appellants' comparable

sales #5, #7 and #8 as well as board of review comparable #3 due to differences in dwelling size or age when compared to the subject. The Board gives less weight to board of review comparables #1, #2, and #4 due to their 2018 and 2019 sale dates occurring less proximate in time to the January 1, 2021 assessment date than the other sales in the record.

The Board finds the best evidence of market value to be the appellants' comparables #1, #2, #3, #4, and #6 which includes the common comparable. These comparables sold proximate in time to the assessment date at issue and are similar to the subject in location, dwelling size, year built and some features. However, each comparable lacks finished basement area which is a feature of the subject. The comparables sold from January 2020 to July 2021 for prices ranging from \$593,000 to \$750,000 or from \$182.18 to \$236.86 per square foot of living area, including land. The subject's assessment reflects a market value of \$737,780 or \$241.42 per square foot of living area, including land, which falls within the range established by the best comparables sales in this record on overall market value but above the range on price per square foot. The higher price per square foot is logical due to subject's finished basement which is not a feature of the best comparables. Therefore, after considering adjustments to the best comparables sales for differences when compared to the subject, the Board finds the subject's estimated market value as reflected by its assessment is supported and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
