

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Margarita Coronel & Rodrigo Sosa
DOCKET NO.: 21-07280.001-R-1
PARCEL NO.: 03-34-202-014

The parties of record before the Property Tax Appeal Board are Margarita Coronel & Rodrigo Sosa, the appellants, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the DuPage County Board of Review.¹

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$59,670
IMPR.: \$170,000
TOTAL: \$229,670

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 2-story dwelling of frame and brick exterior construction with 3,269 square feet of living area. The dwelling was constructed in 2004. Features of the home include a basement, central air conditioning, a fireplace, an attached garage of 419 square feet and a detached garage containing 360 square feet of building area. The property has an 8,350 square foot site and is located in Elmhurst, Addison Township, DuPage County.

The appellants contend overvaluation as the basis of the appeal. In support of this argument, the appellants submitted information on six comparable sales located in the same assessment neighborhood code as the subject and within .48 of a mile from the subject. The properties are

improved with 2-story dwellings built from 2000 to 2004. The homes range in size from 3,255 to 3,594 square feet of living area. Features include basements, central air conditioning, a fireplace and garages ranging in size from 399 to 697 square feet of building area. The comparables sold from January 2020 to July 2021 for prices ranging from \$575,000 to \$750,000 or from \$159.99 to \$226.45 per square foot of living area, including land. Based on this evidence, the appellants requested a reduction in the subject's total assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$253,030. The subject's assessment reflects a market value of \$756,895 or \$231.54 per square foot of living area, land included, when using the 2021 three year average median level of assessment for DuPage County of 33.43% as determined by the Illinois Department of Revenue.

In response to the appellants' evidence, the board of review through the township assessor submitted a comparable report of the appellants' comparable sales that disclosed sites ranging in size from 7,280 to 9,500 square feet of land area and comparable #6 has finished basement area which were not disclosed by the appellant.

In support of its contention of the correct assessment the board of review submitted information through the township assessor on six comparable sales with same assessment neighborhood code as the subject. The comparables are described as 2-story dwellings of frame, brick, or frame and brick exterior construction built from 1996 to 2020 on sites with 7,800 and 9,000 square feet of land area. The dwellings range in size from 2,898 to 3,654 square feet of living area. The comparables each have a basement, central air conditioning, one fireplace and a garage ranging in size from 420 to 877 square feet of building area. These comparables sold from May 2018 to March 2020 for prices ranging from \$646,000 to \$812,500 or from \$206.62 to \$245.35 per square foot of living area, land included. The board of review also provided a location map of both parties' comparable sales in relation to the subject property, property record cards and exterior photographs. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellants contended that the board of review comparables are not comparable due to their remote sale dates in 2018 and 2019 and/or age differences. In a rebuttal grid analysis, counsel suggested that the appellants' comparables are the best comparable sales in the record and contended the subject's assessment should be reduced.

Conclusion of Law

The appellants contend the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellants met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the parties submitted 12 comparables sales to support their respective positions. The Board gives less weight to appellants' comparable #6 which has finished basement area

unlike the subject. The Board gives less weight to the board of review comparables due to their age differences when compared to the subject and/or their 2018 and 2019 sale dates are less proximate in time to the January 1, 2021 assessment date than the other sales in the record.

The Board finds the best evidence of market value to be appellants' comparables #1 through #5 which sold more proximate in time to the assessment date at issue and are similar to the subject in location, age, dwelling size and some features. However, the subject has an additional detached garage which none of the comparables have. Nevertheless, these comparables sold from January 2020 to July 2021 for prices ranging from \$593,000 to \$750,000 or from \$182.18 to \$226.45 per square foot of living area, including land. The subject's assessment reflects a market value of \$756,895 or \$231.54 per square foot of living area, including land, which falls above the range established by the best comparables sales in this record both on overall value and price per square foot. Based on this evidence and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
