

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: M. Sasso & J. Bearstler  
DOCKET NO.: 21-07320.001-R-1  
PARCEL NO.: 01-16-407-004

The parties of record before the Property Tax Appeal Board are M. Sasso & J. Bearstler, the appellants, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$38,510  
**IMPR.:** \$116,800  
**TOTAL:** \$155,310

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellants timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2021 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a 2-story dwelling of brick exterior construction with 3,616 square feet of living area. The dwelling was constructed in 1995. Features of the home include an English basement, central air conditioning, one fireplace, and a 567 square foot 3-car garage. The property has an approximately 14,655 square foot site and is located in Bartlett, Wayne Township, DuPage County.

The appellants contend assessment inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument, the appellants submitted information on four equity comparables located in the same assessment neighborhood code as the subject and within .12 of a mile from the subject property. The comparables are described as 2-story dwellings of frame, brick, or brick and frame exterior construction that range in size from 3,265 to 3,874 square feet of living area. The homes were built from 1990 to 1998. Each comparable is

reported to have a basement with three having finished area, central air conditioning, one or two fireplaces and a 706 to 876 square foot car garage. The comparables have improvement assessments that range from \$88,980 to \$116,820 or from \$24.15 to \$30.15 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$155,310. The subject has an improvement assessment of \$116,800 or \$32.30 per square foot of living area.

In response to the appellants' evidence, the board of review through the township assessor submitted a grid analysis and property record cards with exterior photographs on the appellant's comparables noting comparable #1 has a reduced improvement assessment due to its poor condition and comparables #2 and #4 have reduced improvement assessments due to their property locations which back up to State Highway Route 59 or along Schick Road. In addition, aerial photos of each comparable was provided to demonstrate the location differences.

In support of its contention of the correct assessment, the board of review submitted information prepared by the township assessor on six equity comparables with the same assessment neighborhood code as the subject. The comparables are described as 1.5-story or 2-story dwellings of brick or frame and brick exterior construction ranging in size from 3,193 to 3,673 square feet of living area. The homes were built from 1990 to 1999 and have basements, two of which have finished area. Each comparable also has central air conditioning, one or two fireplaces, and a 462 to 816 square foot 2-car or 3-car garage. The comparables have improvement assessments that range from \$101,370 to \$123,220 or from \$31.34 to \$33.74 per square foot of living area. The assessor also provided property record cards, aerial photographs, and exterior photographs for each comparable sale. Based on this evidence, the board of review requested the subject's assessment be confirmed.

In written rebuttal, the appellants' counsel argued board of review comparables are not comparable due to differences in style and/or dwelling size.

### **Conclusion of Law**

The appellants contend assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments, for the assessment year in question, of not less than three comparable properties showing the similarity, proximity, and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted ten equity comparables for the Board's consideration. The Board gives less weight to the appellants' comparables due to differences in location and/or finished basement area when compared to the subject. The Board gives less weight to board of review comparables

#2, #3 and #5 due to difference in dwelling size or finished basement area when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #4 and #6 that are relatively similar to the subject in location, age, dwelling size and some features. These comparables have improvement assessments that range from \$109,380 to \$120,890 or from \$31.34 to \$33.60 per square foot of living area. The subject's improvement assessment of \$116,800 or \$32.30 per square foot of living area falls within the range established by the best comparables in this record. Therefore, after considering adjustments to the best comparables for differences from the subject, the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
